

Ribald Humor

by

Lancelot Savelli

Lots of people do a crossword over breakfast, I do poems, you don't crumble up a poem & toss it. Tease the waitress, cashier, bartender, counter girl, teller, hat check girl, lady lawyer, you name it. Tease em by mail, Philippine girls speak English, so do many Russian Girls. After the iron curtain crumbled, liberation was immediately ceased upon & they loved writing to a poet. The thing about poetry is that once in a while you get lucky & make a friend. One waitress in Palm Desert Ca. would literally dance & say "oh boy, fun stuff." The saucier the poem, the more she'd laugh. For years teased her senseless, we became fast friends. Ladies love to be noticed. They already know about their ample derriere or double D cup bra & usually take it well when teased. I've been treated like a big brother, asked for advice but seldom got involved, just teasing - the girls knew it if I didn't. My habit was to give a copy of each poem to the victim (the lovely lady that inspired it) a semi-dangerous assignment. One manager told me not to write for his girls, said "oh, you're paying for my dinner then?" Gotten a few angry looks, one waitress disappeared into the kitchen, permanently. Been told off occasionally, all in all, had a great time. Ladies! Thank you for your ample inspiration. Recognize a poem? Love to hear from you! Many of these beautiful & charming young ladies are now grandmothers. Hope you delight in the wit occasional wisdom of your humble poet.

God Bless & Enjoy

Fairy Tales

Why do I believe in fairy tales

once upon a time where love never fails

hand in hand the hero & his bride

live happily ever after the story teller lied

I've been dealt many an awesome blow

but a black knight with sword in hand was not my foe

a magic potion conjured up visions of delight

which suddenly much to my surprise

became a horrible fight

Laughing at enchantment this jester danced in mime

every broken heart I've had was cured & not by time

another pretty maiden soon would soothe my grief

luck is with this laughing clown loneliness is brief

Everyone a princess more enchanting than the last

I'd truly be a harlequin to prefer the past

searching for the perfect one, a most delightful quest

oh I'll confess I do enjoy administering the test

Seewald

Lingering memories of passion & delight

growing more clear with age precious & bright

the years add beauty, so it seems

you're more lovely each night in my dreams

Reflecting is gracious you're always the same

eighteen forever when love was a game

feelings were real this is now clear

bittersweet romance left a smile left a tear

There is no excuse for letting you go

the good book tells us we reap what we sow

still I'm most fortunate you once were mine

I had everything but forgot about time

I once said that many girls could do

later decided there were but few

now convinced I made a tragic mistake

for you are here then disappear as I awake

Reason

*Fantasy becomes a friend
this compliment for you is penned
living image of secret desire
you inspire*

*You made me think of a song
can I entice you, to sing along
perhaps symphonies
will please*

*Secret is, find the right one
spice life up with laughter & fun
evenings - music, food & love
before you rest thank God above*

*Not my style to settle for less
like more, I confess
wanted you a long time
sublime*

Ideal

*For today I use you as an ideal
pretend much more than I actually feel
flowing words of passion & truth
a tribute to beauty & youth*

*Life's a mystery the future a veil
sometimes we win sometimes we fail
what matters is that we try
but believing in failure is the ultimate lie*

*The attempt itself is success
motivation the primary quest
never succumb to dismay
or before you know it you don't want to play*

*Embrace something good & give it your best
learn from mistakes, success is the quest
make it a habit to win
anything less is sin*

Rump - Cari

*Love you plump,
a firm round rump, I'd like to jump
what have I penned
my lovely Rubenesque friend, why offend*

*Surely love you thin
feminine, cute dimpled chin
either way you're great
what's weight, how about a date*

Ubluptuous - Cari

*Been making a fuss, you're voluptuous
what else could I do, with you
no small affair, what a pair
you fill my glass, I ogle your ass*

*This is pure bait, fish for a date
unlike other men, cast with a pen
what a catch, top & bottom match
soft & round, each mound*

*Annoyed sweet toy, by this bad boy
another one of the freaks, who like your cheeks
just tell me to take a hike, or you'd rather sleep with a dike
even take it if you slapped my face
but please don't break out the mace*

Debonair - Cari

*With fanfare
declare
yes dare
tell you I care
you're fair
love your hair
what a pair
intense affair
quite rare
beyond compare
beware
can't help but stare
& know I haven't a prayer
it's unfair
feeling despair
you're aware
my great desire is to snare
& bare
the most debonair
derrière
anywhere
I swear*

Great Big Butt - Cari

*Can't help it, become a fan
not your average ass man
but lady you have one great big butt
is this obscene or what*

*Know you're as good as it gets
a delicate waist, firm round tits
but God almighty what a tush
absolutely cush*

*Become obsessed
love to get you undressed
seeing you in a fancy thong
would inspire more than song*

*Taking one hell of a chance
you could slap me but lady I really want in your pants
do anything to make you blush
it's a rush*

Quite Tart - Cari

*The last piece I wrote was really quite tart
certainly would not consider it art
must apologize a thoughtless trick
you deserve something romantic*

*A delicate smile upon your face
intensely desire an embrace
your beauty is cause for alarm
delighted with all your charm*

Amass - Cari

*Saw a girl with class
had to make a pass
compliments you will amass
that no one will err surpass
tho I'm being brass
pretending to harass
the facts are clear as glass
attracted to you lass
must be your smile*

Sleep - Cari

*Just once let me steal a kiss
for a moment experience bliss
kiss your cheeks caress your hips
taste the sweetness of your lips*

*Let me embrace you & gaze in your eyes
feel the warmth of your glorious thighs
drink in the ecstasy of your soul
passion the goal*

*How long must I wait
abstinence my fate
prefer you full of desire
a glorious burning fire*

*Melt into my arms
intoxicating charms
kiss me long & deep
share my bed, heck with sleep*

It's Fun - Cari

*Cherish you in every way
how you work how you play
simple things that mean a lot
you've got*

*Charm & humor, honor & grace
full bodied, luscious, a happy face
not going to just sit & pine
keep teasing until you're mine*

*When that happy day arrives
it' will affect so many lives
generations will share in our love
blessed by Heaven & God above*

*So if you think this courting vain
my reward loneliness, pain
remember angel I'm not done
besides it's fun*

That Rear - Cari

*Please forgive me for being blunt
admiration & the hunt
delight in all kinds of art
touches my heart*

*You have assets to admire
wish you were single you'd start a fire
still your obvious charm
has caused no harm*

*On top of that, you're kind
blue green eyes, a sparkling mind
quick to smile & happy to please
if you were mine I'd do more than tease*

*As it is pretend to kiss
grab handfuls of tender bliss
yes you are wonderful & dear
but my oh my that rear*

Plush Bottom - Cari

*Long brown hair & hazel eyes
animated sensual prize
the kind of girl you'd marry
that's Cari*

*Full of fun & innocent
quick to handle any fresh gent
you told me what to do
feeling grew*

*Only permitted to tease
tho ever desiring to please
& explore each ample curve
God my nerve*

*Let me kiss you & caress your breast
delight as your passion peaks to a crest
when it comes to qualities baby you've got em
& such a plush lush bottom*

Your Rump - Cari

Giving up, you just say no

purely in vain, feelings grow

it's not you I'm the tease

nothing says you have to please

Court jester, fool, the sad eyed clown

making you laugh when you wear a frown

time to fly & save my soul

in vain reach for this goal

Seduction & humor, each evening write

inspiration I intend to delight

receive each compliment with a smile

a thanks, a blush, God you beguile

So close & yet so far

servng me drinks across the bar

turning into a grump

never got to play with your rump

Rut - Cari

Ritual is hard to explain

memories, a mixture of joy & pain

repeating the past in gesture & deed

for me, you read

Smiling you indulge

dreams & desires boldly divulge

romantic fantasy on your unwilling ear

do you think me queer

Asset of adventure, reality is drab

enchantment constantly grab

for mystery sake pretend

but never offend a friend

Pretense is powerful but must retreat

why not a sensitive, good boy meet

you're in a rut

let me play with your butt

Beauty Grows - Cari

*Sweet warm & wonderful, a figure divine
can't help pretending that you're mine
every desire with charm fulfill
in my dreams, have you at will*

*It's not my fault you're such a prize
charming smile, intense eyes
stunning curves, graceful walk
full of laughter & cheerful talk*

*Noticed more than each firm contour
a childlike innocence soft & pure
adorns as no precious jewel or fine clothes
as I get to know you, your beauty grows*

*See friendship & much more
a warm loving woman to adore
precious fantasy delighted you're real
there's a lot more to you than sex appeal*

Linger Awhile - Cari

*Been friends a long time
compliment, tease you in rhyme
glorious woman, at first glance
thought romance*

*Been gone for a week or so
just dropped by say hello
was free tonight
pure delight*

*Nothing casual inside me now
gently kiss if you allow
why not try lover sweet friend
it's already penned*

*Linger awhile
tease, make you smile
such joy in your eyes
you're a glorious prize*

Thunder Thighs - Cari

*Thunder thighs, it's your eyes
that touched my heart
more than nerve, admire each curve
insulting with art*

*Offensive slime, abusing rhyme
fondling you with my mind
from head to feet, especially your seat
a precious find*

*What good does it do, loving you
committed not to commit
you wear no ring, so I sing
but soon I'll quit*

*Seek to bless, don't settle for less
my teasing sincere
with words I abuse, not anger not use
laugh when you shed a tear*

Cheek - Cari

*Have a goal success is a must
make love to Cari, or bust
all my dreams & desires are big
for any opening dig*

*Find a way to win your heart
humor, conversation, perhaps art
the trap is set with a serenade
you fall in love & I have it made*

*Sure I want in your pants
huge on romance
besides I can't help but wonder
just how big the treasure I plunder*

*If you don't think I'm serious, don't bother to phone
tonight go home sad & alone
I'll just fantasize about sneaking a peak
at the enormity of each lovely cheek*

Your Behind - Cari

*A mystery I must solve
no matter what it may involve
climb a mountain, swim the sea
get to you, home free*

*A longing only you can cure
slave to absent allure
will desire never cease
find the puzzles missing piece*

*Only one answer to this riddle
somehow someway, fiddle
you bewilder & confuse
still confident I simply can not loose*

*This endeavor more than jest
you're the ultimate quest
huge find
your behind*

The Place - Cari

*The old place just isn't the same
afraid you're to blame
when you left it lost its soul
now it's empty dull & droll*

*Now & then hear your name
seems the poems brought us fame
all are sad that were apart
everyone thought I stole your heart*

*Wasn't after just your behind
it's my fault for teasing you blind
attracted because you're so nice
in many ways a pearl of great price*

*Liked you inside & out
all my silliness caused you doubt
guess it just wasn't meant to be
The Place is no longer any fun for me*

Least Two - Lulu

*Biggest reason I love you is your bust, you may be right
you're a Lulu alright, gigantic delight
honey I'll take all I can get
more than a cantaloupe each luscious tit*

*But a boob with boobs you're not
you're sizzling hot
why should I settle for less
bright eyes stole my heart, I confess*

*Once I saw the rest
the unbelievably unique way you're blessed
full figured girl with long brown curls
said to myself, forget other girls*

*You're all I want, more than I need
what the heck, I'm into greed
take all of you Lulu
lots of reasons, at least two*

Grow - Lulu

*Love your smile & dimpled chin
the way your eyes sparkle as you grin
laughter more lovely than a heavenly choir
kisses full of burning desire*

*Happy woman bringing good cheer
to everyone each day of the year
light up my life with humor & fun
very happy this has begun*

*Yes indeed like what I see
when you laugh you get all jiggly
like a huge bowl of jello what a dish
fulfill each wish*

*Just a simple man
with a simple plan
you know
with laughter love will grow*

Magazine - Lulu

*Seen girls like you in a magazine
now in the flesh, my own tit queen
who ever said more than a mouthful's a waste
never had melons like yours to taste*

*It takes two hands to hold one tit
so soft & delicious, just can't quit
takes four hooks to fasten your bra
damnedest contraption I ever saw*

*Not just quantity, quality as well
perfectly shaped, they're swell
perky nipples, no sag, no droop
incredible stand out, in any group*

*Seem obsessed, don't worry have trust
delighted with more than your just bust
tongue in cheek poem, cheap thrills
still, much prefer mountains to hills*

Flop - Lulu

*Never been so thrilled my pet
reach a hundred still couldn't forget
the first time unhooking your bra
glorious mountains of flesh I saw*

*Perfect & round standing out proud
astonished, delighted, beyond endowed
first you object & then give in
never forget your mischievous grin*

*Large pink nipples point out & up
amazingly firm, overflowing your cup
no teacher gave you that F or is it a G
natural wonders to see*

*You have been blessed & blessed again
can't help but pick up my pen
when it comes to busty you're the top
unhook your bra & let em flop*

Not - Lulu

Little Lulu your not

*baby you've got more than a lot
got enough for at least three
not too much for me*

Must have a very strong back

*just to support that amazing rack
do you need help when you try to stand up
have to special order your triple E cup*

May be teasing but also amazed

*ok my eyes are a little bit glazed
your beautiful & oh so busty
sexy woman you make me feel lusty*

No one has a nicer set

*perfect & perky, in your debt
if not for you I'd never have known
just how big, tits can be grown*

Bust - Lulu

*Love your lips, love your eyes
love your elbows & your thighs
like the dimple in your chin
especially your grin*

*Love your hair & your waist
even love the way you taste
all my feelings you can trust
now can I play with your bust*

Tag - Brenda

*I noticed your hair, then you turned round
so young & fair, inspiration's found
nervous & late, you still had a smile
it must have been fate, to stand near for awhile*

*To my delight, you work in this store
it's there in plain sight, hard to ignore
you have an outstanding name tag there Brenda
after work, my hacienda*

Agenda - Brenda

*A present is on the agenda
not in a package pretty Brenda
a song to tell you I care
for your smile & shimmering hair*

*Radiant happiness in your eyes
a delicate voice speaks in sighs
grateful for your lift
today a compliment's the gift*

*Lovely a truly rare treat
not just beautiful you are sweet
an infectious smile warms my heart
great inspiration for my art*

*Your figure's nothing short of sublime
thinking of you can't help but rhyme
yes indeed you provide a lift
to the world of art a gift*

Blush - Sherry

*Like redheads when they blush
rosy smile inviting a crush
eyes so brilliant, intense blue
colorful lady I love you*

*Please excuse me I know I'm fast
if you're amused it could last
beauty soothes the poet's soul
inspiration makes me whole*

*If you need a compliment
time with me is time well spent
good looks alone won't steal my heart
but you've made a glorious start*

*Precious gems glittering every shade
rainbows & roses I am afraid
are faded & dull when compared with you
colorful lady you're glorious it's true*

Turned - Sherry

Took a seat

we didn't meet

called your name

to pursue the game

Went for a ride

you left, I sighed

wanted to tease face to face

missed the chase

Determined to make merry

without Sherry

others to please

new girls to tease

Not as tho faithful is my aim

just a flirtatious game

but lately my taste turned red

in bed

Scary - Sherry

A vision of beauty smiled at me

greatly honored, guarantee

lovely gracious & so kind

sweet lady you're quite a find

Only half serious have no doubt

that half'd love to take ya out

either way tease you again

the artist loves a pen

Enjoy seeing the city lights

a twisty road that excites

wind up the mountain on my bike

enjoy some wine take a hike

You have qualities sublime

create desire, more than rhyme

so sexy it's scary

Sherry

I Go - Sherry

*See red, why stop, I go
like fire don't you know
redheaded girls are full of life
enchanted not full of strife*

*Always easy on the eyes
when you kiss them, gentle sighs
just like the rose who's scent it divine
Sherry you fine*

A Rush - Sherry

*Like the way you blush, what a rush
modest beyond belief, good grief
mean to please, when I tease
laugh, in my behalf*

*You make me grin, & contemplate sin
when you get upset, I'm in your debt
you bring me joy, oh boy
shoot, you're cute*

To Stop - Lori

*Hay whose heart are you trying to stop
each time you bend over I nearly drop
sweet girl have mercy on me
tell me when you're free*

*Keep thinking about your legs
don't come here cause I like the eggs
it's your fault I'm a hopeless case
pray I don't die in this crummy place*

*You could become my reason to live
more than inspiration give
long to know the touch of your lips
laugh as friendship into passion slips*

*But if you bend over again
have to do more than pick up my pen
it's you I'll need to pick up
gosh dropped another cup*

Bump - Lori

*What a pleasure to bump into Lori
an excellent beginning to this story
still don't know if it's fiction or real
but in the end your heart I steal*

*Been affected by your perfume
delightful fragrance like flowers in bloom
the smile in your eyes makes me pick up my pen
need an interview say where & when*

*Could this be fiction or biography
either way a best seller written by me
as inspiration you're top of the scale
happily ever after concludes this tale*

Composure - Lori

*Hope it's me makes you nervous
intended to interrupt the service
your composure rob
promise not to cost you your job*

*Is it difficult to deal with my crush
uncomfortable moments & you blush
I've decided no longer to wait
before you break something how about a date*

Brings Wealth - Lori

*Came here this morning to brighten your day
in the middle of business a chance to play
wanted to make you laugh
& smile in my behalf
it's important to tease
silliness just to please
the affluent often bitch
it's not money, makes me rich
attitude brings wealth
happiness & health*

Lovely Story - Lori

*Wonder what'll get written today
rhyme about children at play
perhaps a song for a lady divine
enticing her to be mine*

*Whatever It'll be happy & true
the inspiration comes entirely from you
a sexy page in a lovely story
because of your smile Lori*

Helen of Troy - Lori

*Helen of Troy in all her glory
was not as fair as sweet Lori
men went to war by Homer we're told
for this maids honor warriors were bold*

*Romantic stories that live by the sword
leave me perplexed, often bored
not impressed by violence & strife
for you I'd live, not end a life*

*Fantasy adventure a rose with no thorn
sharing friendship & talent, passion is born
facing the world together as one
delightful fun*

*Two that continue thru the years
find love in joy & in tears
time moves slowly, day by day
love makes it seem like play*

*No other beauty is as enchanting
seeds of magic I'll be planting
the horse is probably just a story
heck with Helen I want Lori*

On The Court - Lori

*What'll happen today
serious when I play
give it all I've got
can't win if you haven't fought*

*True this is no game
the rules however are much the same
penalties will hurt your score
commit a fowl, off the floor*

*Being assertive is no sin
necessary if you plan to win
no matter what be a good sport
have fun on the court*

The Story - Lori

*Forgotten the story, Lori
poem with no time, or rhyme
presented by some lippy, hippie
who swore before God above, twas love
offered to make you his wife, what strife
you got lucky & got away, that day
you're still free, what glee
now you can go out with me*

Tease - Lori

*My favorite tease is flat on her back
fear she's had some kind of attack
been real sick is the story
long to see my friend Lori*

*Visualize you healthy & bright
a stronger person you've won the fight
eager for life, vibrance the goal
taking it easy is good for the soul*

*Hurry back you're greatly missed
personally keep hoping someday to get kissed
touch your heart with some silly rhyme
seeing you healthy & whole is sublime*

*Soon you'll be back on the job
your composure attempt to rob
getting you flustered would be a first
beginning to wonder if I'm well versed*

Laugh - Tracy

*Bright high laugh & ruby lips
delicate waist, womanly hips
blond hair shimmering in the sun
don't know you, but you look like fun*

*Industrious & never shirk
make cute little faces as you work
I'm an admirer of your smile
good disposition & feminine wile*

Keeping Up - Tracy

*Blow the hair out of your eyes
tap your foot, soft anxious sighs
impatiently waiting you never stand still
observing you is a thrill*

*You seem exciting & fun
always happy, on the run
keeping up would be a blast
might be able to, told I'm fast*

First Place - Tracy

*Why settle for second best
certainly not easily impressed
you're the girl I'm looking for
you make spirits soar*

*Counting on you to finish first
easy to see your well rehearsed
under pressure you can't be beat
quick on your feet*

*The reason you're number one
because you're so doggone fun
sexy figure & happy face
you're first place*

*The blue ribbon prize
goes to the girl with intelligent eyes
best in show
I'm the judge don't you know*

Upbeat - Tracy

*Tracy, like who you are from head to feet
your laughter your smile so upbeat
girls spend a fortune on a haircut & perm
exercise daily to keep themselves firm*

*Then forget to have a good time
being happy is sublime
beauty is truly skin deep
if that's what a guy wants he's a creep*

*I want someone fun & bright
who enjoys life, takes delight
beauty that comes from within
it's in your laughter & your grin*

*Happy & charming, a lovely curve
cheerfulness not held in reserve
you don't pretend to be aloof & wise
no pretense at all, you're a prize*

*You know just who you are
never put on a face, you will go far
because you enjoy your life
you're going to make someone a wonderful wife*

Bit Racy - Tracy

*My pen is a little bit racy
forgive me Tracy
never tempt you to sin
suggest it openly with a grin*

*Why conceal what's inside
do more than quietly confide
sing your praises everywhere
tell the whole world how much I care*

*Will you be surprised when your song
is played on the radio all night long
be beside me & together laugh
as people ask for my autograph*

*Come be amused with my goal
share my successes I'm on a roll
someone needs to help me write
someone happy & bright*

To Reach - Tracy

*You're pleasant & lovely Tracy
you'll get away with being spacey
when you forget things just smile & blush
& act like you're in a terrible rush*

*Couldn't be angry at someone so sweet
improve the flavor of what I eat
it may take longer to reach my plate
but your smile makes the service great*

Forgetting - Tracy

*Forgetting things because of you Tracy
everyone noticed, I've gotten spacey
absent minded most of the time
dreaming of someone sublime*

*My thoughts keep returning to you
planning the perfect rendezvous
sit with a blank smile on my face
contemplating our first embrace*

Bad Luck - Tracy

Had bad luck with girls

don't look past their curves & curls

give em the benefit of the doubt

then pout

It doesn't matter how pretty you are

unhappiness is an ugly scar

enjoying misery is no game

it's shame

Laughter, my luck just changed

perhaps a date could be arranged

tease you all night long

in song

Melodies with an upbeat style

tease you senseless make you smile

composing's easy to do

for you

Lilting laughter inspires my pen

if you're not too busy with other men

take a chance I'm really not racy

Tracy

Talks - Flame

If I seem forward please forgive

confess it's how I live

don't know your name we've never met

have a feeling you won't forget

Are you sentimental, smile at the past

I create memories that will last

compliments & if you allow

tomorrows laughter is here & now

For very good reason you inspire

something wonderful hints of desire

adorable freckles, milk white skin

silent & serious you suddenly grin

Iridescent your charming smile

think I'll linger for awhile

delightful child giggles as she talks

what's really amazing are her crimson locks

So Red - Flame

*Radiant & warm like the sun, full of life full of fun
colorful lady if I offend, before love begins, the end
you're laughing great, would it be pushy to ask for a date
a dream come true, certain do like more than the view*

*But the view is wonderful pretty one, shapely girl on the run
smiling at me as you pass by, can you hear me sigh
charming beauty you delight, passionate in love or a fight

adding to the world of art
because of you pick up this pen

Screw Rage - Mikie

Hate to see you sad, so bad

don't know why

when filled with joy, oh boy

you touch the sky

Laughter like children on a sunny day, at play

touches my soul

naturally when down, we frown

mostly happy & whole

Ignore problems for awhile, & smile

give up on grief

walk away from strife, for life

find relief

Romance can lead to anger & hate, it's fate

utterly absurd

find yourself in a battle of wills, it kills

make like a bird

Fly away from your angry cage, screw rage

never again

personally I'd rather be alone, & phone

or better yet argue by pen

Mouse - Mikie

It's Halloween there's no better treat

in case no one tells you, you're lovely & sweet

succulent morsel to be unwrapped

either that or a trick & I'm trapped

Kiss you, you'll just disappear

proving forever it's a night to fear

perhaps you'll become a goblin or ghost

here to frighten then boast

Fantasy, illusion a glorious haunt

just being beautiful this fool you taunt

the moment we touch you'll fade away

at least one of us pretends to play

Perhaps it's you not me in disguise

am I in love or telling lies

this year you don't need to go house to house

more fun to stay home & tease Mikiey Mouse

Intimate - Mikie

almost angelic the face of a child
hiding passion appearing mild*

*Sensual & feminine when you give your heart
consumed with poetry music & art
may just have a chance
to steal your heart with laughter, romance*

*Hot sun & white sand, salt in the air
the crashing waves, your glistening hair
long to hear the sound of your voice
just holding your hand I rejoice*

*But now you are so far away
silly words invite you to play
love you much
inviting red lips I long to touch*

Wealth

*Never been able to say how beautiful you are
things in my past left me with a scar
not too close you might walk away
act indifferent but want you to stay*

*Really do care

is your soul & loving heart*

& for dessert a kiss*

tho in earnest you think I jest

artist & poet also a man
imagining an amusing plan*

*Laughter sweet fishy the bait
seduce with humor no serious date
be your comic for the night
your sides will hurt with delight*

*Tickle your fancy with my nose
make you giggle as I suck on your toes
laugh till you cry & beg me to stop
then hop*

Thief

*Try to catch this smile it's yours for free
this stranger's admiring you laughingly
enjoyed your beauty from not far away
in a hurry but decided to stay*

*Then you got up & suddenly left
realized immediately there'd been a theft
ran outside no evidence
you committed a heinous offense*

*The property you've stolen is really very nice
it wasn't for sale it at any price
then you stole it & off you went
deliberately you torment*

*But if you really want it don't give it back
I'll get along somehow, tho I sadly lack
but should we really be apart
now that you stole my heart*

Louise

*Ten years older is that a lot
really like what you've got
more than just a heart throb
your cradle rob*

better late than never
for you wait forever*

*Two years ago, no
send you home to mature & grow

I will fulfill with passion & fire*

*Fantasy is sometimes real
a touch of heaven what I feel
with tenderness you gently please
then a vixen coyly tease*

then ran into sweet sexy Joan
who makes gift giving an art
your present touched more than my heart*

You Smile

*Had one thing on my mind
biggest thrill I'll ever find
gives me reason to sing tis true
nothings like being alone with you*

*What could be as big a delight
as looking at you what a sight
I've no right to complain
allow me to entertain*

*Others might stand here & tell a joke
if I tried that I'd go broke
my talent to serenade
even been known to get paid*

*Enjoy using my voice

got to meet you for awhile
I sing, you smile*

the mystery of silly rhyme
give it time*

Spell - Michelle

*Many things go into the making of art
you need talent, hard work & heart
great paintings begins with a glance
the inspiration is often romance*

*Every song begins with sound
the instrument usually soft & round
this poem was written by spell
the enchantress Michelle*

*Are you aware of the magic you weave
in emerald eyed fantasy I now believe
the sorceress has bright red hair
helplessly cast into her lair*

*Hope to do more than merely survive
assaulting my senses, feel so alive
with enormous magical powers blessed
what a quest*

I Fell - Michelle

*There's not much to tell
fell
under your spell
swell
do tell
feeling well
because you excel
delightful mademoiselle
yes you compel
won't say farewell
myself sell
& soon you'll hear a wedding bell
ringing in Carmel
on the beach at the Sea Shell
Hotel
red rose in my lapel
with a delicate smell
& all dressed in white sweet Michelle*

Bait - Michelle

*Not exactly fishin, this isn't bait
a poetic mission, smile await, fate
matter of time, then meet my match
fall in love with rhyme, & still not be my catch, natch*

*Before you get too excited, consider how much I write
be delighted, should you someday recite, quite
you inspire, the pen to gently caress
my desire, is success, bless*

*Not trolling, tho jerking string
cajoling, perhaps this evening, sing
Michelle's my latest whim
oh swell, thinking of me & him, slim*

*Still you laugh & smile, obviously amused
happy style, as you're abused, used
you have much charm, better run away
I'll come to harm, seductive today, stay, pay*

Marilyn

*Where do I begin
lovely as sin
so feminine
happy grin
cute little chin
plays violin
delicate & thin
soft white skin

my head seems to spin
where have you been
your heart win
or chagrin
unless you have a twin*

Marilyn

the union you share built on trust
always speak gently or it crumbles to dust*

*When people are careful to grow closer each day
working together seems like play
each sunset more beautiful with love at your side
you make me feel good truly confide*

*For one moment no longer alone
now pray you just answer the phone
if you don't I'll move on
hello goodbye, you're gone*

At Ease - Maria

Don't put you at ease

tho pleasant & always say please

No dishonor in this soul

let's play

League - Olga

Hold me close & kiss me each night

fill my bed with tender delight

passion builds a life that's complete

when it comes to lust you have the cure

Conquest is what I'm searching for

respect your council tho you are young

just be gentle with your tongue

Ebony Tresses - Olga

Smiling eyes & ebony tresses

dreaming of sweet caresses

lingering tenderness join me tonight

Plan someday to draw you close & taste your delicate lips

always remember our first kiss, this I know

long before I hold your hand, love is bound to grow

Soon we'll walk & gaze at the sky

watch clouds at sunset, birds chirp as they fly

serenading life & love hear them sing

could be Cupids bow a wing

Pick a magic time each night to hold me in your mind

let me know the hour I'll meditate in kind

think of me five minutes & I will touch your soul

touch your lips with mine, a delicious goal

More than this I want your heart & all of your desire

in your dark brown eyes see passion's brilliant fire

today a seed planted on paper by pen

if you fall in love this poet's the luckiest of men

Courting - Olga

Dream of tender moments in sunshine

days of warmth & romance perhaps make you mine

bright rays glistening down through a tree

This ancient game is more than just fun

need a partner & you're just the right one

no problem, up to the task Vicki
how about a quickie*

Shay

*Responding to love you're at your best

someone with whom to share a bond
everything comes up roses the way you respond*

Far Off Land

*Searching for love in a far off land
adventurous maiden give me your hand
explore the depth of my artistic soul
if passion & friendship are your goal*

*Irish wit & charm in these veins
full of emotion but still use my brains
virtue & honor is how I live
in order to receive you must give*

*My word is a bond I do not break
sometimes eloquent but never fake
sensual, romantic & a touch of lust
but someone you can always trust*

*Delighted to charm, never abuse
touch of pride but never use
so if you've decided to roam
here's a home*

Heart

Sometimes do more than tease

love to please

take me serious find delight

my nature to be polite

Blue eyes so happy & bright

beauty is bound to excite

perhaps inspire a book

if you allow me to more than just a look

Make you nervous, please say yes

soothe you with, gentle caress

looking for love, desire your charms

sweet fulfillment found in your arms

With talent seek to impress

naturally, pray for success

make an impression in the world of art

give me your soul, your body, your heart

Swine

Sometimes feelings lie

passion makes us high

reality is left

bitter theft

Sanity becomes insane

could have used the brain

all that I feel

you gently steal

Vicious thief in the night

what happened to sweet & polite

passions enthuse

then loose

Hard thing to learn

you receive what you earn

don't give love away

you pay

Love is to share

for each other truly care

pearls before swine

bad designe

compassion & love radiate

meeting you is fate

When you smile the heavens rejoice

possesses an angelic voice

like what I feel

than giving others a lift

You lift me up

as you fill my cup

Daphne

Verse

Suddenly my spirit begs

for full bodied girls with long slender legs

petite women have a certain charm

but a loving big girl would cause no harm

A lady who looks me straight in the eye

no need to bend over should we kiss goodbye

incredible figure smiling face

delight surely found, in your embrace

Found myself dreaming of sensuous lips

a rich red wine one delicately sips

woke up just as we kissed

can't help but wonder what I missed

Tell you plainly you create desire

everything seems to feed the fire

eyes, hair, the curve of your waist

you must agree I have great taste

Inspiration - face, figure, especially your smile

with laughter beloved you beguile

totally enchanted & it's no curse

the way you smile laughingly, says you care

without you, nothing to say*

*Never had such a wonderful greeting
surely it bears repeating
be back
desire more than a snack*

Jennifer

*Love is on the menu no matter the cuisine
many fragrant flowers & the desert green
a glorious oasis a rare & brilliant jewel
clear & warm every day, but the nights are cool
then it's time for music & ladies who beguile
no matter where you go things are done with style
come along let's party where it's fun & hot
first go out for dinner know the perfect spot
deserts are for mystery, sunsets & romance
then foxy lady let's go out dance*

Chore

*The empty felling inside gone for good
discovered it down here in Hollywood
want to get home so bad it hurts
found a real woman, tired of flirts*

*Usually the time doesn't drag this way
like a kid waits for the bell to play
minutes seem like hours each hour a day
the clock's become a slow motion replay*

*Seven will come I truly believe
one more hour then leave
soon find your tender embrace
stroke your hair & smiling face*

*A reunion lets celebrate
this is a special date
we've never been apart before
it's a chore*

You Know - Joyce

*Conversing with a friend in my usual loud voice
the topic of discussion was you Joyce
told him how much you mean to me
turned around, guess who I see*

*Now you know how much I care
accidentally telling doesn't seem fair
wanted to find a romantic way
find the right time a time for play*

*Alone together flowers & wine
some quaint restaurant by candlelight dine
get on one knee & ask for your hand
wonderful moments should be planned*

*Accidents happen & now you know
been careful not to let intentions show
next time lower my voice when I talk
hope this revelation didn't shock*

No Way - Kate

*This is no way to make a date
the next thing you know, get you home late
don't be angry I'm not to blame
a free spirit is hard to tame*

*Pretty young girls are nice to tease
naturally mean to please
someday find the right one
that doesn't mean wait to have fun*

Mate - Kate

*There's no passion to compare with you
so tender & true
my greatest delight, your caress
never be satisfied with anything less*

*Nowhere else find the look in your eyes
admiration, laughter & your sighs
bubbling over with joy
soon feel like just a boy*

*You tell me wonderful when I've sung
keep me healthy & young
ask no more from a mate Kate
you're great*

End - Kate

*Hard to believe caring so much in such a short time
all my love pouring forth in tenderness & rhyme
suddenly seems clear what's in my heart
feel incomplete, been missing a part*

*Forced myself not to feel, to deny
not the only one, living a lie
will you find a better life
may as well, become my wife*

*Marry me, me pretty, let's celebrate Kate
every day is precious, be my mate
share my bed, bear my children, what a thrill
intoxicating lady, never get my fill*

*Two or three, three or four, may be four of five
we're going to have a family, feeling alive
always honor you, be your greatest friend
what do you mean this nonsense simply must end*

Up - Gina

*You stand up for your self very well but when
not here to offend as other men
on the same side for heaven's sake
guard your tongue, my heart might break*

*Easy to hurt & you hurt well
defense is a habit, so you yell
expect the best, that's what you'll get
love is wonderful, forget regret*

*We're both romantic, we've both been hurt
there's no reason to remain on alert
adoration builds esteem
time to fulfill each others dream*

*Take you serious then love, don't hate
sorry I laugh but I'm your mate
there's better things, perhaps you recall
since we're dancing, lets have a ball*

Brood - Gina

*Beloved lady I truly do care
love your smiling eyes & soft flowing hair
drink in your beauty, like wine
glorious woman thrilled you're mine*

*Not just lovely gentle & kind
pearl of great price precious find
a truly good woman honest & wise
greatly blessed, found a prize*

*Want no treasure more
loose you instantly poor
my hope for love
in the hands of God above*

*Similar goals, seems like fate
found my soul mate
parents of a talented brood
happy mothers day, in the mood*

Your Look - Gina

Stole my heart with your look

you know the one

overflowing love & lust no subtle hook

promising passion & fun

Saying much with intense brown eyes

the meaning crystal clear

honesty mystifies

easily you endear

Fearless in love you stake a claim

without speaking a word

eternal & true not just a game

more than merely inferred

Blatantly risking heart & soul

courageous & full of pride

lucky & grateful to be your goal

feelings you do not hide

Reason

Every artist needs a reason to create

I look at you, you fascinate

thanks darling, words to write

for your delight

It's your fault I'm perplexed

by grace & loveliness delightfully hexed

overcome by potent charm

but your magic will cause no harm

Its done much good, everyone will hear

glorious woman can't help but revere

you were made to compliment, gladly pick up a pen

if you are amused, pick it up again

Phrase

You make me want to turn a phrase

not just stop & slyly gaze

wonderful how you make me feel

encountering such appeal

Sing your praise for all to hear

exquisite lady so filled with cheer

from the house tops loudly shout

this lady's a knockout

One Knee

*Want me to get down on one knee
give you a ring, please marry me
candle light dinner & pink champagne
serenade, yes I'll entertain*

*If there's a chance you'll say yes
get you in a white wedding dress
I'll continue to tease, to court
make reservations, a honeymoon resort*

*Niagara falls if tradition you want
get ready for a romantic jaunt
or take an ocean cruise
what ever sounds good you choose*

*Promise one day to be my bride
overflowing joy & pride
stand together, say I do
to love that's true*

Mine

*Over the miles, lives intertwine
on paper with poetry, make you mine
almost fantasy yet real
pretend your heart to steal*

*Hope to enchant with words soft & kind
compliment beauty & your keen mind
speak of romance, love & desire
dreaming of warmth without fire*

*One day perhaps we may actually meet
admire your beauty from head to feet
watch you smile hear your voice
each time you laugh rejoice*

*Only distance keeps us apart
reach out to touch your precious heart
from far away you take my hand
love is grand*

A Fight

*What else can I say, I love you
may not care but it's true
turn feelings into song
my motive all along*

*Don't know you, you don't know me
touch of gypsy, just wander free
learned how to care & give
waiting for someone who knows how to live*

*Honesty is your strong suit
know how to smile & you're cute
confusion part of your life
obligation causing strife*

*Beautiful angel if you were alone
be delighted to stop & phone
sharing you, no delight
looking for love, not a fight*

Looking

*What are you looking for
tired of the same old boor
want something different for a change
something fun offbeat strange*

*Not your average Joe
usually the star of the show
write the words on each page
always end up on stage*

*Performance my game
take my bows, humble acclaim
enjoy the plaudits of the crowd
after singing real loud*

*Beauty with humor seek
quiet moments not really unique
family & friends at my side
basically boring confide*

Sin

*What you do to me, almost sin
excited each time you grin
the way you walk, a thrill
can't get my fill*

*Beauty beyond compare
dark hair & eyes, complexion's fair
each day loveliness grows
allow me to compose*

*Verse after verse, offering praise
easy to do just sit & gaze
there is no flower no tender bloom
that is as glorious, or has sweeter perfume*

*Charging my senses, vibrant delights
suddenly soaring to new found heights
in gentle moments warm & soft
send my spirit aloft*

Woman's Touch

*When it's time to give up life on the stage
before the voice starts to show its age
simple fare will meet my needs
it's not on things, that my spirit feeds*

*Each year in laughter & joy I grew
now search for a gentle soul that's true
someone who lends a hand to a friend
to important things attend*

*Rich, gladly give it away
need a lady to help me play
no fat cat estate
eschew wealth, fame, don't believe in fate*

*Build your castle with these hands
no architect no fancy plans
needs a woman's touch
much*

Meg

*Asked for your number, got it wrong
spent the evening writing a song
come on over gladly sing
a wrong number started something*

*Praise your beauty with every word
inspiration my heart was stirred
a lovely delicate flower
gentleness has its power*

*Melodies are on my mind
suddenly they're easy to find
composing is fun because of you
everything exciting & new*

*Perhaps an accident
a nervous embarrassment
or you could be pulling my leg
then you'll never hear this song *Meg**

Serena

*Saw me checking for a ring
reason to sing
embarrassed *Serena*
a glorious signorina*

*You're still free, this now seems clear
you were taken, my first fear
a diamond does not adorn your hand
things are planned*

*Hold you beneath the stars
sing love songs the sound of guitars
enjoy dinner some wine
an evening of romance, divine*

*Your eyes so soft & brown
make me act like a clown
let me steal a kiss
bliss*

Woo You

*You want me to woo you
take up a new cue
do better than that
make things quite right,
on this bright night
show you where it's at*

*In the persuade trade,
prepare to get laid maid
passions coming your way
when in a lewd, mood,
you're no prude nude
ready to play*

*So when we're alone moan
there's no chaperon groan
like what you do
pleasure's extreme scream,
strawberries & cream dream
vision come true, love you*

Aesthetic

*Where have you been all my life, full of strife
my search for a wife
now have one who's mild, delightful child
sometimes wild*

*Forgive me can't help but boast, here's a toast
to the girl I love the most
your effect on me is magnetic, aesthetic
casually energetic*

Connie

*You're lovelier every day
even your smile seems more gay
amazed at all I feel
is it possible this beauty is real*

*Laugh with desire at God's great gift
he molded you without thrift
no goddess of love can compare
there is no mortal quite so fair*

*None of your glory has gone to waste
all of your assets are well placed
a heart so happy & full of love
that comes from you not from above*

Look

*You're absolutely lovely, great eyes
figure & face what a prize
don't even know your name
but can't complain*

*It was great to observe
soft brown hair each luscious curve
don't worry not like other men
your beauty inspires a pen*

*At the sight of you write
delight
perhaps a book
but then probably want to do more than just look*

You Thrill

*Know what I'm after, passionate laughter
seek to amuse, & enthuse
don't get me wrong, touch you with song
might touch more, I adore*

*Seek to bless, perhaps caress
hold you close, be verbose
experience bliss, once again kiss
laugh if you will, you thrill*

Special

*Perhaps someday tease one all the time
a special lady gets the rhyme
no longer joke with every girl
just one precious pearl*

*Kept my eyes open for many a year
going to places with good atmosphere
won't find my princess at some local bar
happy to wait for a shimmering star*

*Need no problems to interrupt my work
choose love over talent, not a jerk
just have to tease em all
till I find someone special to enthrall*

Russian

*Six months have gone by & only one letter
something in English would have been better
the Russian alphabet is lovely indeed
but not one word can I read*

*Know little seek to know much
the sound of your voice your gentle touch
hear you laugh, watch you smile
separated by language & many a mile*

Doll - Barbie

*Barbie told you're a doll
begged a friend to give you a call
don't be anxious please be amused
only artistically are you used*

*A description inspired this rhyme
plan to meet you in a short time
know you'll live up to the picture in my mind
a precious & lovely find*

*Great expectations or artistic whim
are you curvaceous or a trifle slim
curly brown hair, eyes dark & rich
is it really true you're sometimes a bitch*

*Don't be offended there's warmth in a fire
you express yourself & are no liar
told you're serious want nothing less
what happens now is any ones guess*

Pretend - Barbie

*Don't even know I'm alive
because of you I strive
to write a compliment
time well spent*

*Already in your debt
we've never met but you I won't forget
love is what you give
share yourself to live*

*Inspiration today
writing now child's play
fantasy alive, you
imagine a rendezvous*

*Even if we never meet
grateful, lovely, petite
sweet time to pretend
perhaps make a friend*

Petite - Barbie

*Tiny woman with a great big heart
know you love beauty music & art
if you enjoy poetry & song
our feelings could grow passionate & strong*

*We've never met but like what I hear
a respected friend cheerful sincere
said that you were exciting & nice
told that you entice*

*A mystery delights like nothing else can
expectations fuel plan after plan
even dreamt of you last night
your embrace was out of sight*

*What do you enjoy where could we go
perhaps dancing or maybe a show
a quiet restaurant where we could talk
or in the moonlight a romantic walk*

*Long for the taste of delicate lips
passionate caresses & soft round hips
looking forward to the ultimate treat
an evening of laughter with someone petite*

Skirt

*Feel exactly what I'm supposed to feel for you today
full of passion, persuasive things to say
going to seduce you, no lie
at least give it one hell of a try*

*Nothing sneaky subtle or coy
won't get you drunk, use tricks like some boy
want you totally aware as I fill you with sighs
undress you slowly & look in your eyes*

*If you get nervous & try to object
offer you laughter & time to reflect
so slow down if you feel the need
your every request gladly heed*

*Be as careful & slow as you want
no memory of me will ever haunt
won't leave you angry & hurt
or treat you like dirt*

ever so gently unbutton your blouse your skirt

Miranda

*Children take comfort in teddy bears
they always have someone who really cares
as a child I had a black & white panda
now I'd rather cuddle Miranda*

*Much warmer, soft to the touch
beautiful lady love you much
no sawdust in you at all
you're a living doll*

*Animated & light on your feet
when you smile a delicious treat
suddenly filled with joy
you're no toy*

*Love to play with you
too old for kid games, it's true
but if you'd like to break out your teddy
I'm ready*

Abandon

*Beauty & charm loving & kind
accidentally made a great find
feel more love from you in two days
than my ex ever gave me with her fancy ways*

*Alive & down to earth
pearl of great price a woman of worth
fortunate the man you adore
no one could have more*

*When you set your heart on a man
you love with abandon no careful plan
reckless passion be my slave
drag you home to my cave*

*Never want to be wanted less
delightful woman, me you bless
what do you need to protect
let me inspect*

Kisha

*Be back in an hour so for coffee I go
by God an hour can go by slow
every few minutes look at the clock
it's moving backwards I'm in shock*

*Why does time try to keep us apart
cruelly delaying affairs of the heart
now seconds advance as if to please
moving toward romance but slowly to tease*

*The moment will surely arrive
but my fingernails may not survive
very soon we'll go for a ride
up the mountain slowly glide*

*Know exactly what I'm waiting for
a delightful adventure is in store
can't imagine a more wonderful treat
a day with Kisha, lovely & sweet*

Vickie

*Been fond of you since you were thirteen
charming Princess becoming a Queen
young, tender, beautiful & fair
had to ignore how much I care*

*Now you've finally come of age
could a mere child love this old sage
makes more sense than beauty & beast
still twice your age at least*

*Thru the years occasionally we'd meet
quiet & charming such a treat
when barely fourteen you looked twenty one
still playing with dolls for fun*

*Now you write poetry & like to sing
we've much in common except one thing
fifteen years keeps us apart
let's bridge the gap with art*

Antsy - Nancy

Getting antsy

know it's chancy

but you strike my fancy

lets get romancy

Nancy

Dark Evil - Nancy

See the real you come out all the time

delightful sublime

tho you act like you don't give a flit

the truth is you're a mischievous wit

Your eyes twinkle when you're on a roll

revealing a brilliant childlike soul

you may pretend to have a dark evil side

but I know damn sure you lied

Pillow Talk - Nancy

Determination is in your eyes

see you looking to the skies

prepare for changes that you make

patients & planning avoid a mistake

Your attitude is in the right place

be certain it's truth you embrace

always be gentle & love those who hate

inside your joy will be great

Tenderness just touched my heart

inspiration for my art

exciting & young like the spring

a reason to sing

An innocent flower is now in bloom

blushing bride before her groom

a bright new road that you walk

be sure arguments end with pillow talk

Before - Nancy

*Been here before, here once more
probably be here again, each time pick up a pen
whenever I need amused, this place is used
to tease & observe, those who serve
Old habits are hard to break, so for old times sake
drop by, & give it a try
sweet success, Nancy your charms really bless
you've made my day, you're at work, I'm at play*

Party

*Born alone & die alone, between here & there it's a party
got on the phone, let's do dinner, eat hearty
a carafe of wine perhaps some veal, an evening of romance
enjoy a good meal, then dance
Life's meant to savor to enjoy, existence is shared
perfect evening for girl meets boy, be prepared
a lovely vista, city lights, glorious with you at my side
share an evening full of delights, let's party, you decide*

Cass

*Don't mean to be crass
lass
something about you none can surpass
delights amass
can't help but make a pass
alas
being brass
don't mean to harass
but you have wonderful qualities en mass
casting a lure but not fishing for bass
gladly provide a repast
dessert & demitasse
a proposition clear as glass
your a big girl don't sass
it's how your jeans expose that crevasse
seriously let's smoke some grass
after class
go to my place & let me play with your ass
Cass
a husband? Oops! - impasse*

Patty

Don't want to play Patty-cake, hide emotions be a fake

honesty's at stake

love you much this you know

precious feelings that could grow

if the past you forgo

each word a game, I've no claim

a cold & empty flame

friend for sure, with allure

but love should endure

words don't confuse, or always amuse

got the blues

Resistin - Christin

There's no resistin, Christin

deep mysterious eyes & hair like the sun

exuberance & joy, oh boy

a beautiful prize delightful & fun

friendship's begun

Thin - Christin

Nice when a poet's treated the same

after teasing someone with their name

admit it's an amusing sight

when someone's defensive & puts up a fight

What I am is just what you see

composition is heaven for me

silently sitting with pen in hand

break into laughter only I understand

Everywhere the world seems to rhyme

stop to capture it, lost in time

sharing art is important to me

sometimes people fail to see

But you see what I'm up to & don't complain

you'd never admit it but I'm a big pain

so thank you much for your sly grin

sweet thin Christan

Hint - Natasha

Carrie

*Your disposition is wonderful Carrie
its effect on me is almost scary
nothing delights like a pleasant smile
happy girls are the ones with style*

*The clothes you wear merely decorate
tho your make up may help you look great
a frown destroys the entire effect
a beaming face shows self respect*

*If you like yourself & enjoy life
it's doubtful you cause others strife
in seeking friends I choose ones like you
whose smile shows a heart that's true*

when having trouble & can't write a line
for just one moment pretend you're mine*

inspiration your beauty praise
nothing's as lovely truly confess
like this wild weather, you impress*

concentration for naught*

*Are you glad to be on my mind
companion, gentle & kind
a better way to enjoy your charms
would be in your arms*

Reason

Fantasy becomes a friend

this compliment for you is penned

living image of secret desire

you inspire

Your voice made me think of a song

perhaps entice you to sing along

any excuse to tease

& please

The secret, find just the right one

spice up life with laughter & fun

reserve evenings for singing & love

always give thanks to God above

Not my style to settle for less

honored to compliment perhaps impress

wanted you for a long time

a glorious reason to rhyme

Clair

Find magic everywhere

live life without a care

with flair

not square

but tired of being solitaire

you've noticed my less than innocent stair

desire one whose fair

& you're lovely beyond compare

the sun in your hair

delicate debonair

beauty like yours is rare

beautiful one do not despair

if there's a prayer

for a poetic snare

prepare

words teasing upon the air

saying I care

you've charmed a poet beware

Clair

Sublime

*Allow me to say, in a poetic way
just how lovely you are
not merely tease, compliment & please
touch your soul from afar*

blessed by heaven above*

romantic music, pink champagne
walking in a light spring rain*

as the moon rises the coyotes sing
unlikely minstrels harmonies ring*

Touch

*Must be losing my touch
you can't tell I'm teasing & I like you much
forgotten how to play this game
what a shame*

*Too polite perhaps a boor
what what do you say when you adore
your sexy, wonderful, love your smile
like your style*

*Out on the town you'd radiate
in an evening gown, you'd look great
make my intentions perfectly clear
have no fear*

*Let me hold you in my arms
drink you in, savor your charms
just one little stolen kiss
bliss*

Theatah - Rita

*Perhaps we could go to the theatah, Rita
or stay home & play
write our own story
Come along, inspire song
put away doubt, I checked you out
love to do inventory*

The Type - Rita

*Are you the type the poet can entice
compliments are my vice
offer a smile, a rhyme
& my devotion throughout time
A soft mysterious surprise
as I gaze into your eyes
what else could a poet do

*Nina's a name I've come to adore
an ancient song & now much more
a haunting melody reminds me of you
a name & beauty given few*

Exuberance - Nina

*Needed a touch of exuberance today
glorious like wildflowers in May
searching for someone I did not find
silently dined*

*Longed for enchantment & soft brown eyes
receiving only dark gray skies
still thinking of you gave me a lift
sunshine & exuberance are your gift*

Nothing

*You're not looking for anything, I'm not looking for nothing
too bad*

*boy meets girl will not do, no time for being true
I'm not mad*

*Honestly you tell your tale, you're not ready again to fail
with any lad*

*actually we're much the same, circumstances are to blame
but it's sad*

*Full of laughter full of life, as you walk away from strife
from a cad,*

*admiration is what I feel, true I wish your heart to steal
make you glad*

*Just isn't my lucky day, you simply don't want to stay
not a tad,*

*I want all & you want none, frustration laced with fun
all we've had*

*Charming eyes delightful smile, stole my heart for awhile

I'm no cad*

Head Over

Head over heels in love with me

ok don't need to be free

won't take what I want & leave

on my account, you won't grieve

You look at me, with puppy dog eyes

complete with sudden & nervous sighs

don't need to hide what you feel

I'm real

Just as excited as you, sweet thing

use my pen or play & sing

think of you, all day long

naturally, break into song

Thanks to you, feel like I should

feel good

please believe me my feelings are true

head over heels for you

Art - Sheree

Enchanted by Sheree

*lass half leprechaun, half faerie
face of an angel, celestial eyes
God created a mischievous prize*

More than charming, sincere

*inspiration to grace a career
words flow like red wine from my pen
sassy & cute, do it again*

Spend an evening, sound the alarm

*I write the books, you provide charm
glorious, the poets desire
with good humor inspire*

Engaging fantasy enchant

*a touch of reality you could grant
generously contribute to the world of art
take my hand, touch my heart*

Bee - Sheree

A busy bee

*whose full of glee
caught my eye hope she's free
take a ride down to the sea
or up the mountain please agree
glorious sunset beneath a tree
a rainbow of color for us to see
beautiful lady just you & me
keep you safe guarantee
my motorcycle's on warranty
an opportunity to flee
have you home by two or three
serenade, a gentle plea
chorus of song birds sweet harmony
create a symphony
say no, catastrophe
this poem, sad irony
say yes jubilee
a romantic spree
steal a kiss from sweet Sheree*

Scary - Sheree

Elegant women are rare these days

delighted as I gaze

on your delicate face with uplifted chin

know you're not stuck up because of your grin

Your bearing shows you're proud

kind of person who stands out in a crowd

beauty that catches everyone's eye

but inside, a little girl's quiet & shy

Brilliant, enchanting elegance & class

forgive me sweet lady for this subtle pass

you have a certain reserve

bet you're thinking this poet has nerve

A compliment that rhymes is a simple thing

better look out if I start to sing

serenade cause you're so delightful it's scary

Sheree

Barrier

A language barriers, can be a delight

I can still write , it's more difficult to fight

love merely a word

absurd, in silence it's more clearly heard

conversation, eloquent thighs

expressive eyes, emphatic sighs

laughter & happiness give

captor & captive, we know how to live

language so clear

so near, dear

Phone

Sunday morning, the party's over

long blond hair upon my shoulder

got lucky you spent the night

the get together was out of sight

I'm light headed can I stay

a little wine & you feel like play

be a shame to be alone

if you stay I won't have to phone

The Toy

*Almond eyes serene yet shy & so full of joy
far too lovely to be real, perhaps you're actually a toy
let me take you out to play, promise not to be rough
guarantee to put you back, when we've had enough*

*Won't get you dirty, loose you in the dark
you can tell mommy we'll be in the park
when it's time to go home, take you by the hand
at your door steal a kiss, nothing else planned*

*Any game you choose to play, gladly play along
serenade with a romantic & happy song
or you can sing the melody, top notes on the staff
duets to make us smile, duets to make us laugh*

*Promise to be really nice & treat you as I should
mommy might let me keep you, if I promise to be good
your dad could be persuaded, with joy give you away
then we could stay at home, whenever we want to play*

Name

*Didn't stop & ask for your name
opportunity wasted it's a shame
if we meet again forget shy
walk right up & say hi*

*Get your number, ask for a date
perhaps inspiration is also fate
my heart's desire will respond
beautiful lady love is the bond*

*Perhaps find a mate for my soul
adventurous spirits through life we stroll
hand in hand full of laughter & lust
romance & friendship built on trust*

*Or are you illusion gone like a mist
create desire but can't be kissed
don't want money, power, success or fame
just want your name*

Pep - Michelle

let's turn the page
a change of scene, Jean
my queen*

Met - Hope

*Have compassion, on fantasy
its created much
more than passion, surely you see
heart & soul will touch*

*Asked your name, just to tease
hoping to see you again
silly game, meant to please
in vain my pen*

*A waste of time, now you're lost
no one to compliment
my silly rhyme, will get tossed
useless hours spent*

*Up to fate, smile or grieve
yeah a dope
never too late, I firmly believe
love to elope, with Hope*

Ideal - Hope

*Today use you as an ideal
pretend much more than I actually feel
flowing words of passion & truth
a tribute to beauty & youth*

*Life's a mystery the future a veil
sometimes we win sometimes fail
what matters is that we to try
believing in failure the ultimate lie*

*The attempt itself is success
motivation the primary quest
never create dismay
or before you know it you don't want to play*

*Embrace something good & give it your best
learn from each failure, success is the quest
then make it a habit to win
anything less is sin*

Pearls - Hope

*On your neck one strand of pearls
gentle blue eyes flowing soft curls
maturity clearly beyond your years
a woman of compassion always endears*

*Yes you're lovely but what do you seek
guess I'll know sometime next week
you may need security more than romance
loving an artist you take a chance*

*I watch the sunset then you watch it rise
half a world away a glorious prize
anticipating the best like a dope
go to the mail box & hope for a letter from Hope*

*Use my noodle & doodle
a little informal but normal
really a docile old fossil

something simple eloquent
searching for just the right phrase

nicest figure in the whole darn place
but nothing I write will do
you keep asking for something new*

Longer - Analisa

*The longer I look the lovelier you become
honestly fear I'll succumb
don't look away real soon
wedding bells in June*

*Been alone so very long
solos instead of song
been looking for just the right one
no one else could be as much fun*

*Hope you don't mind my gazing at you
beauty like yours is given few
never look away
if you let me stay*

Hazel

*Are you real or imaginary innocence
in my mind, fantasy soft but real
tenderness in your laugh each step full of grace
are you as gentle as the smile on your face*

Image of desire

*heart that's warm, a glowing fire
careful abandon, feel your need
love slowly grown from a cautious seed*

*Mysterious eyes that change hue
green with envy or sad & blue*

*sometimes the color of mist
romantically close them when kissed*

*Dreaming that you take my hand
warn you my strategies planned
hold you close through the night
no longer forced to imagine delight*

Jugs - Melonie

*I asked for a cup, & got the whole pot
you came right up, I like what you got

& cleavage good Lord, where does it end
I'd never get bored, an enormity with which to contend*

such treasure can not be replaced*

*Your tasty cup, fills me right up
like wine you intoxicate

in so many ways you're great*

*Pretend you're mine, on you I'll dine
a night of passion & lust
hunger & thirst, you last & first
start with your lips then your bust*

Bases - Melonie

*Took me forever to steal a kiss
loose your bra, experienced bliss
only imagine what you have in store
glorious woman give me more*

*Only gotten to second base

bound to hit a home run*

*Should I need coaching you'll work on my swing
batting a thousand & feel like a king
when rounding third & preparing to score
want you pleading, begging for more*

*Give into passion without regard

touch your body, heart, mind & soul
just running the bases isn't my goal*

Weigh - Melonie

*After last night I was wondering, now are they mine
so full & firm so womanly, baby you're fine
set them free for just a bit, absolutely amazed
upon a mountain vista open mouth I gazed*

*Large but staring heavenly so pointy & so pink
easily excited they wrinkle & seem to wink
warn you darling for your own good keep both eyes on me
you have my solemn promise, everyday set em free*

*You make me feel like a 16 year old, on a very first date
alone together nervous & shy, wasn't it great
grab my hands as I get fresh, shake your finger, I'll slap
if you really objected you wouldn't be in my lap*

*When it comes to touching, just can't get my fill
loose your blouse kiss your breast, gracious how you thrill
say they're mine Melonie, take em out only to play
always be my favorite toy, wonder how much they weigh*

Buxom - Melonie

*Buxom beauty I can't get enough
seems you have just the right stuff
in all the right places I might add
baby you're bad*

*Thrilled beyond my wildest dream
what you do to me is extreme
weak in the knees & red in the face
every time we embrace*

*There really is a lot to adore
it would be greedy to ask for more
all I'll ever want is you
so much love is given few*

*Too graphic I'll cease & desist
either that or I may not get kissed
be good, hell I'll be the best
my oh my, how you've been blessed*

Quits - Melonie

*I respect your mind but lordy your bod
your legs, a gift from God
not only have you got breeding & class
nice ass*

*Forgive me for being direct
had much time to reflect
your kisses are sweeter than honey or wine
so fine*

*This, no secret admirer you know
aware which way the winds will blow
all things considered you're number one
for fun*

*Your bosoms enormous, glorious breast
two times perfect, twice the quest
honey I'll never call it quits
great tits*

Pour - Melonie

*Scared I'll figure you out
giving your heart makes you doubt
there's love in your eyes
think I don't notice your sighs*

*Be willing to trust
& succumb to lust
glorious women inspire
pen & passions fire*

explore each feminine curve
desire irrupts
you like me playing with your lovely E cups*

*Respond, like a dam overflows
all of a sudden passion grows
till you can't hold it back any more
out it pour*

Imagine - Melonie

*Have to admit you might not be real
imagination all I got to feel
thought to myself what would be best
naturally you had an enormous breast*

*Perfect name Melonie
described exactly what I'd like to see
blue green eyes & red hair
that & you must really care*

*A girl who likes to laugh
at herself & in my behalf
mischievous & lusty
slender but damn busty*

*Caring & moral full of truth
no bad habits & never uncouth
not only that really sweet & nice
my ideal my pearl of great price*

Remember

*Don't remember you all, forgive me please
can't see each leaf much less forest for trees
a few of you I can't forget, I'll take you to my rest
friendship, smiles, by each of you greatly blessed*

*Laughter is life's great blessing, not power or wealth
it brings comfort to all, even improves your health
hope you kept my silly rhyme to remind you of sweet youth
you were all so beautiful it's the simple truth*

*You made the poet fall in love with your delicate charm
your laughter, your blush, especially enjoyed your alarm
mischievous youth or dirty old man, attend
nothing but a poet, always, forever your friend*

*Much inspiration vividly recall, some sadly forget
either way, this poet is deeply in your debt
enjoyed ogling the bootie
of each & every delicious cutie*

Cass

*Don't mean to be crass
lass
there's something about you none can surpass
delights you amass
makes me want to make a pass
being brass
alas
don't mean to harass
but you have wonderful qualities en mass
casting a lure but not fishing for bass
but gladly provide a repast
dessert & demitasse
a proposition clear as glass
now don't sass
your a big girl
your jeans expose a nice crevasse
let's smoke some grass
after class
& I'll play with your ass
Cass
a boyfriend? Oops - impass*

Mercy Mine

*God saved the best for last
nothing nearly as good in the past
given me children that delight
even enjoy every fight*

*I have talent, she's practical
I'm impulsive she's tactical
spur of the moment then with a plan
this poet's a very lucky man*

*When I get crazy she'll go along
full of delight when I write her a song
sometimes think I was wasting time
but then you wouldn't be reading this rhyme*

*Much inspiration to forget
but not one moment of regret
always managed to have fun
waiting for the perfect one*

*Once I found her, never looked back
began a new life on the right track
thank you Lord for one so fine
my one & only Mercy mine*
