

# Heart Breakers

by

Lancelot Savelli

*Here's to the ones that got away. In my quest for a good woman to share my life & raise a family, many wonderful ladies got teased, some I actually remember, this collection represents those that will never be forgotten. Loved them all & wish them well in life. Some earned my admiration some my enmity, others my pity some believe it or not broke my heart. None were a wast of time. They were friends, some lovers but all in retrospect, necessary lessons on my path.*

*The wisdom to raise my children, to be a good husband & be a concerned citizen was partly learned by observing those around me. Most by their good example, sometimes a not so good example. Seeing first hand the pitfalls & passions of those who were close taught me that talent, charm & intellect are not enough, the gifted & wise can be foolish. Love & forgiveness are not enough for some wounds do not heal. Even faith is not enough for we are all weak.*

*What matters most in life is self control, persistence & integrity. Without these qualities little worth having is achieved. I was seeking a wife who would stand beside me & raise children to nurture & teach. God has greatly blessed me, found that wife & have those children now. What I bring from my past is a touch of wisdom & a ton of poetry.*

*God bless & enjoy!*

*Seeing Red - Debbie*

*Red's my favorite color darlin forgive me if I stare  
there's something wonderful about your bright red hair  
it hints of fire burning deep within your soul  
& leads me to imagining things I can't control*

*Love to run my fingers thru your crimson locks  
hold you close & kiss you my delicious little fox  
there is so much to learn, to know, pray tell  
you have my attention colorful mademoiselle*

*Much lovelier than the richest most fragrant bright red rose  
sweeter on my pallet than the finest French Bordeaux  
not even as the sun goes down is there such a hue  
precious rubies are quite dull when compared with you*

*Can't help but dream sweet one of our first embrace  
anticipate the flush on your pretty freckled face  
but if you laugh at me for these serious things I've said  
promise you I won't be mad, I'll just be seeing red*

*Oops - Debbie*

*Don't know you, things change  
now a stranger, very strange  
baby you don't know the half of it  
I don't quit*

*Tease you forever & a day  
still be laughing when we're old & gray  
any excuse day or night  
one way or another bring delight*

*Tire of laughing, sing you a song  
amaze you with voice full & strong  
love songs, opera, country or rock

do hope you're the last  
you're unsurpassed*

*Can't stop or so it seems  
when asleep you invade my dreams  
wake up all alone it's sad  
another poem & suddenly glad*

into my heart, silently creep  
it's ok that you jump in my head  
just tired of being lonely in bed*

*May Be - Debbie*

*In love with rhyme & may be you  
want something new

you'll never be bored  
or ignored*

*Passion's something inside your soul  
develop your mind a worthy goal  
we are what we think  
more than food or drink*

*But Art - Debbie*

*Money's not my goal today but art  
to touch your heart  
not interested, the poetry's for naught  
even if bought*

*Run my fingers thru bright red hair  
a love affair  
a moment in time a year, a day  
will we play*

*See you laughing all the time  
at silly rhyme  
at life, at love, at everything you see  
even me*

*Especially me, I aim to tease  
& please  
in every way you choose  
you can't loose*

*Join Me - Debbie*

*Yesterday, raining & gray  
today a sunny day  
even when rains came down  
didn't frown*

*Think of you  
& skies seem blue

you're a book*

you can choose to run away or you can draw near*

*Love is so much better when a crisis has been passed  
then you have the feeling that forever it will last  
if you have no trials, you also do not grow  
but if you always quit, you reap not what you sow*

*Eternity is ours, put a smile upon your face  
accept Gods forgiveness & accept his grace  
you deserve a loving friend who's always at your side  
someone you can look up to & stand beside with pride*

*You've been running all your life, why not take a walk  
now that you have opened up & we've begun to talk  
darling it's quite obvious I'm here in your behalf  
I can make you sigh & I can make you laugh*

*Road Runner - Jill*

*A road runner is cocky & quick  
running so fast it's artistic  
a burst of speed but nary a sound  
do your feet hit the ground*

*Some birds are glorious in flight  
your movements on land are a sight  
soaring on sand you dart then you glide  
this coyote runs in stride*

*You've a passion  
for fashion  
but ration  
compassion  
flashy  
but trashy  
now I've a loathing  
for clothing*

*When looking back at life, seldom think of you  
remember the moment we were through  
& rejoice  
what a joke, bad choice*

*You have no soul  
kindness never your goal  
the most self obsessed lady of all time  
unworthy of rhyme*

*What kind of woman never thinks of another  
hope you never became a mother  
doubt that was ever your goal  
a manikin for clothes your best role*

*Bet your still running away  
no love, no faith, never pray  
an unfeeling woman who loved to primp  
bet you ended up with a pimp*

*Limb - Kym*

*Willing to go out on a limb  
like the vigor, the vim  
this one isn't dim  
or grim  
curvacious figure nice & trim  
not too slim  
her cups filled to the rim  
probably goes to the gym  
or likes to swim  
not too proper or prim  
on a whim  
tip my hat stroke the brim  
hope there's no one named Tim  
or Jim  
no one special, no her & him  
one sweet laughing cherubim  
pilgrim  
that's Kym*

*Quest - Kym*

*Don't want what we had before

by us that's understood*

let's reach the sky  
passion caring each positive goal  
sharing body & souls*

*Life's an adventure take a stand

together we've conquered many a quest  
by Heaven blessed*

least I'm made of the right stuff  
I've learned my lesson lets get on with life  
& put behind us all this strife*

*We've been sowing ugly seeds  
yes I know we both have needs  
wont pretend you're not worth the pain  
loosing you is insane*

*Put down your defenses & love me once more  
now that you know who I adore  
the past is forgotten in light of today  
it's beautiful out, lets play*

*You've chiseled off several rough places  
now all that's left is to polish the faces  
put a smile on your face & this diamond will shine  
finish the job & be mine*

*Were - Kym*

*Grieve, grieve while the night is still young  
compose a ballad, melodies sung  
better to weep with the setting sun  
cry & sleep deeply for tomorrow - fun*

*New sunrise is a symbol divine  
each moment precious, when you were mine  
you've found new love, now I'm free  
thrilled with today it belongs to me*

*You were a part of me, my living flesh  
weaving a pattern to intertwine & mesh  
caresses foreign left a stain  
what did you pretend to gain*

*Precious is each lingering kiss divine the act of love  
truly God's greatest gift sent down from above  
nothing as sacred as joining to conceive  
to use it for less than love is cause to grieve*

*Fleas - Kym*

*Lie with a dog & end up with fleas  
then say fleas aren't so bad  
sit there & itch, won't say please  
scratch, call me the cad*

*Enjoying the pain, welts turning red  
too proud to shower & clean  
angry at what I said  
me or the fleas more mean*

*They suck your blood until you get smart  
& wash them out of your hair  
by the way, it has nothing to do with your big heart  
but frankly I no longer care*

*Blame - Kym*

*Blame me for everything  
think I'll just sing  
attracted to vile debris  
you spit on me*

*Strayed so far  
not sure who you are  
before the world caught eating shit  
& not embarrassed one little bit*

*Persevere - Kym*

*The days are getting colder without you to warm my bed  
think of all we shared why we never wed  
keep hearing childish laughter, tiny footsteps as they dance  
still believe that we are destined for each other & romance*

*Search your soul rediscover the wondrous love inside  
see yourself dressed in white as my blushing bride  
honeymoon in Mexico where the days are long & warm  
we'll thank God & be stronger for weathering a storm*

*Summers gone falls upon us & winter soon turns to spring  
time is healing all our sorrows & soon you'll hear me sing  
the song is new a voice familiar a melody composed for you  
it's a tribute to your beauty & love that's fresh & new*

*When I lay down I see your face adoration in your eyes  
overwhelmed with inspiration, real love never dies  
loneliness is soon forgotten in my heart you are here  
no prize is easily won in love I persevere*

*Parting - Kym*

*If it's parting we must do  
our walk together finally thru  
one more time I'll make amends  
so that we may part as friends*

*Truly hope we can talk  
for a time a separate walk  
this one thing you should know  
in many ways you helped me grow*

*Accept you as you are  
always love you from afar  
in my search you've taken part  
I have found a child's heart*

*Looked at you then looked within  
too much love can be a sin  
here's to freedom yours & mine  
a final toast, once more drink wine*

*Magical - Kym*

*Something magical about what we shared  
right thru bad times we always cared  
good times, a gift from above  
love*

*If tomorrow finds us apart  
it'll break my heart  
but another day  
play*

*With you evermore  
the one I adore  
the world is bright  
write*

*Search your heart, find the spark  
be as happy as a lark  
hear my song  
strong*

*Grown - Kym*

*Gonna miss the simple things the most  
how you like your coffee & sourdough toast  
sharing the paper over breakfast each day  
Athena so serious at play*

*Beamed with pride, my family  
wanted to add branches to the tree  
more cheeks to pinch chubby as yours  
only memory endures*

*Someday smile when I think of the past  
always wonder why it didn't last  
we came close to having at all  
made mountains out of things so small*

*Silence destroyed what was my life  
no mother no child, never my wife  
bitter lesson suddenly alone  
some day look back to see I've grown*

*Grim Reaper - Kym*

*The Grim Reaper touched you but you didn't die  
a skeleton on horseback carrying a scythe  
when he cut you, you felt pleasure not pain  
but all your loveliness began to drain*

*Only your goodness will he try & kill  
smiling with charm he offered to thrill  
but in the end his way is death  
smothering your life & stealing your breath*

*You have awakened & just in time  
with the help of loved ones & honest rhyme  
still you see charm where sin has grown  
the stench of death, fire & brimstone*

*It's never enough to love what is right  
against all things vile, we must fight  
become indignant when considering his game  
for a tempter is evil & to follow but shame*

*Occasional - Kym*

*Our lives together have been blessed  
wonderful moments an occasional test  
trials are past, you were adored  
we were never bored*

*When opposed by powerful men  
they inspired a busy pen  
the scoundrel had his day  
leaving skies gray*

*God protected us from harm  
but evil too has it's charm  
look to tomorrow good it will bring  
always find, reason to sing*

*The world may applaud & fall at my feet  
but only true love can makes us complete  
people will praise my powerful voice  
alone with good memories, rejoice*

*Free- Kym*

*Here to set you free  
from memory  
vivid the past  
but it wont last*

*Soon it will fade  
no price paid  
only happiness to gain  
ending pain*

*Time to accept joy  
find a new toy

blessed by God above*

*Why not choose a man  
who wants you with a plan  
have a life abundant & rich  
it's time to switch*

*Feel melancholy for a long forgotten past  
intensity that did not last  
ecstasy no longer shared  
forbidden fruit was dared*

*Still my memory is bright  
in the dark, see the light  
still, knowing love when it's gone  
seems wrong*

*Even if I could forget  
not one moment would I omit  
foolish love better than none  
thru the pain remember the fun*

*Lord knows we had a great time  
each new project, much positive rhyme  
all things come to an end

*I live this day more gently still*

*others around me lie cheat & kill  
but I know compassion is the greatest gift  
soar with the eagles give others a lift*

*We walk together this narrow path*

*one & one can be three, old math  
think first of me take my advice  
waste your time, pay the price*

*Think of you in all that I do*

*share magnificent feeling's given few  
passion & pride, love the game  
in some things we are the same*

*Peak emotions, spirits soar*

*then enrage me, you do not boor  
we deserve each other our friends are right  
too bad they're referring to the way we fight*

*Passage - Daun*

*Put me thru some perverse rite of passage to see if I'd survive  
covered with scars surprisingly emerge alive  
the ordeal to test my love could be conquered by few  
exhausted & full of pain rest is bound to renew*

*Will you hold me close in dreams & comfort your hero tonight  
nurse me to health, bind my wounds for I've won the fight  
the prize for passing the test is you each night in my bed  
& naturally a restaurant if I expect to get fed*

*Needed a worthy man, brave, honest & strong  
love you forever & a day, serenade you in song  
always a minstrel deep in my soul  
your great beauty was ever my goal*

*There is no woman that can compare you're most fair  
figure divine mysterious dark eyes, flowing brown hair  
men tried to steal your heart but couldn't pass the test  
that's ok baby not into second best*

*Brain Washed - Daun*

*Brain washed by bigots & fools of the night  
elitist ass holes out flying their kite  
you could listen to your own dreams  
instead you live life as it seems*

*Reality is actually the ultimate lie  
we create, then we die.  
between here & the grave we're in control  
live in this world that's soul*

*Did you choose your habits or did they choose you  
change & each day is new  
why do the same thing again & again  
new each poem that I pen*

*Why act the school girl bubbling & cute  
don't pander to sickness give it the boot  
attract idiots & what do you gain  
they rot your brain*

*Prize -Daun*

*Know you're a prize, see all the guys  
dressed & waiting in line  
you may think it's fun, how they scamper & run  
it's disgusting baby you're mine*

*They try to act cool, as they ogle & drool  
pretending to be upper class  
help they all lend & claim to be friend  
but all they want is your ass*

*When you use, sweetheart you loose  
you always pay the price  
pretend it's not greed, but fulfillment of need  
soon your heart turns to ice*

*So cut loose the trash, gifts flowers & cash  
stand on your own two feet  
you don't need a dime, be satisfied with rhyme  
believing in lack is deceit*

*You have it all, be proud & stand tall  
now it's time to work  
talent, mind, beautiful, kind  
why waste your time with some jerk*

*Consider your health, accept Gods wealth  
blessings are yours to accept  
innocence harm, each time you use charm  
nothings free, you're kept*

*Tho you are fair, I do not share  
your obligation's to me  
time to go straight, before it's too late  
if you love me get free*

*Balance the books on me use your looks  
your no free ride  
now you must choose, win or loose  
it's a matter of pride*

## *Frigid - Daun*

*Don't want you if other men think your frigid  
& my moral code isn't terribly rigid  
but other men should not be in the position  
to render such a decision*

*So if the boys are telling you you're cold  
a suggestion if I may be so bold  
stop pretending that friendly's ok  
when you play you pay*

*There's nothing sweet & innocent about your need to be held  
totally lacking desecration your head has swelled  
in your pride & ego you don't care who you hurt  
for someone who likes politics you have a pile of dirt*

*As long as you can't keep your hands off the boys  
they'll use you & toss you like yesterdays toys  
but really girl aren't you just a little bit old  
to be traipsing around town, guys calling you cold*

## *Lufa - Daun*

*Ever finish anything you start  
no career no man no art  
just keep chasing death away  
with shameful play*

*Pretending sweet sixteen  
your seasoned wood no longer green  
paint your face, hide your age  
every few months turn a page*

*You who have much to give  
each time chooses not to live  
all you do is take & take  
pretend your honest but it's fake*

*Full of shame & hate  
asked for change it's too late  
without honesty can you cope  
with God there's always hope*

*Confuse spirit with morality  
nothing to do with being free  
free will is no game  
our concept of spirit is not the same*

*Need to love God & man  
truth & integrity part of the plan  
try a lufa on your face,  
end the disgrace, get a job, don't rob*

*Insignificant - Daun*

*Someday be a significant other*

*husband & wife then father & mother*

*now fill a secondary role*

*piece of flesh without a soul*

*You make the decisions plan your life*

*is it any wonder we have nothing but strife*

*there is no us I never come first*

*just walk away my wounds un-nursed*

*An insignificant other you want me to be*

*why be surprised I need to be free*

*shoot off your mouth but never explain*

*then still come around to cause more pain*

*Make your own choices & leave me alone*

*don't come over don't even phone*

*love you much & wish you well*

*but stop making my existence a living hell*

*No - Daun*

*Got lucky you said no*

*my appearance just cameo*

*not feeling low*

*or filled with woe*

*weird moment in time no status quo*

*you made me out a gigolo*

*guess it's apropos*

*projection sweet contralto*

*but we receive what we sow*

*cast your bread what you bestow*

*offered love received a blow*

*should have seen you're just a pro*

*you didn't want a bo*

*just a foe*

*intimacy dare not flow*

*love is something you don't know*

*wasn't my smile aglow*

*or the way I stop the show*

*you weren't after my dough*

*even hated my bungalow*

*you just liked the way I grow*

## *A Nun - Daun*

*It's not only nice but necessary to be innocent  
or your sense of value & morals are spent  
nothing left but worldly desire  
eager to start a fire*

*Only conversion can help you now  
your knees must bend your head must bow  
ask for forgiveness & change your life  
end the emptiness & strife*

*Confusion, secrets & using must end  
support yourself, your heart will mend  
put sex behind you, forgive the pun  
just for a year or so pretend you're a nun*

*Then choose one man who's gentle & kind  
has common sense an exciting mind  
make sure he's Godly & follow his advice  
then toss rice*

## *Hurt - Dawn*

*How do you make me look when you flirt  
like a fool & I hurt  
behind my back people laugh  
my prides reduced by half*

*You make me out a fool, a sucker not a man  
humiliation is part of the plan  
hurting me you have your nerve  
not getting what I deserve*

*I can move along & change  
you're unable, sad & strange  
doomed to be an abuser  
so much to give & just a user*

## *Copious Notes - Daun*

*Still taking exacting, "copious notes" details extracting  
my poems are "copious" too, volumes to adore  
but you, you plagiarize, & tell evil lies  
panic attack once more*

*Old Dog - Daun*

*Guess you figured with a kiss Michale'd become a prince  
not even with a makeover, cut, perm & rinse  
he may be a little boy old girl but he needs a bag  
your a tramp the humiliation's a drag*

*Didn't ride into your life astride a great white horse  
no shining armor my dress casual not course  
princess see any warts the skin isn't green  
you didn't learn anything sleeping with the dean*

*Had a man who loved you but wouldn't take your shit  
did you feel warm & grateful ask forgiveness & quit  
no you keep right on hurting, till there's nothing left to give  
sweetie I'm gone, only with love can I live*

*You'd rather find a Lilly Pad & wait for something to croak  
frankly Harvard you've become a joke  
you kicked me like some mangy old dog  
only to pucker up to a frog*

*Roses Grow In - Daun*

*Not the fragrance of roses but the stench of septic  
brings out the doubter & makes me a skeptic  
I can take bitter with the sweet  
but won't forgive a cheat*

*Flowers grow beautifully in dung  
but love flourishes when songs are sung  
a man needs inspiration to compose  
you dish out shit & expect a rose*

*Here & Gone - Daun*

*One day your here, the next day gone  
shed no tear, sunsets then Daun

we're apart, doesn't break my heart  
had enough of your lies*

*create a world that isn't real*

*nothing more than a woman kept*

*all your degrees & no depth*

*Pretend to seek the truth*

*your lifestyle is ugly uncouth*

*destroying those who love you most*

*you need what He gives*

*you'll use him till he has nothing to give*

*you don't know what it means to live*

*Empty & cold superficial your life*

*panic attacks & nothing but strife*

*even your laughter is forced & unreal*

*desperation is all you feel*

almost as tho hexed*

*Hard to fail with talent so fine  
on other appetites you surely dine  
bright world awaiting but you like the dark  
no diva no pedestal not even a lark*

*Pretense presumption an amateur my dear  
success in any light is what you fear  
feed your ego & try to impress  
put on your make up & low cut dress*

*But we know what will never occur  
no body of voice clean & pure  
still Lola you get what you want  
too bad DAD pure dilettante*

*Harvard - Daun*

could have caught a disease in your behalf  
so much potential so much grief  
intellectual without belief*

*Sure your smart but are you really alive  
for anything good do you fervently strive  
or are you still self obsessed

can you afford to tamper with fate  
look closely soon it's too late*

*Now you want to be in control  
afraid to give up your independent soul  
often men seek to possess  
others seek to bless*

*Not ready so you claim  
you're not to blame  
never wanted to run your life  
set pen to paper not cause strife*

*To Feet - Carmelita*

*Innocent child lovely & sweet  
beautiful from head to feet  
long black hair, friendly smile  
perhaps we'll meet in a short while*

*All I have is a picture of you  
that & letters so honest & true  
fall in love on paper it seems  
but Carmelita is in my dreams*

*Been searching for that rare priceless pearl  
turns out to be an Island girl  
looking for knowledge & a better life  
couldn't find a better wife*

*Travel across the sea  
if love blossoms bring you home with me  
for now write again & again  
romance limited to a pen*

*Adore - Carmelita*

*What are you really looking for  
an honest man to adore  
a better life a chance to grow  
what do you seek, need to know*

*My needs are simple I guess  
someone honest someone who'll bless  
a good woman who's love is true  
a quality given few*

*Don't want you if it's not right  
only want you if you delight  
without reservation & full of desire  
only then can you inspire*

we'll walk together sometime this year*

*Break - Carmelita*

*You come to me in dreams & take my hand  
walk together in moonlight & sand  
island girl, long black hair & smiling eyes  
in the morning suddenly loose my prize*

*More than just image a vision divine  
only when sleeping are you mine  
long for you so much I ache  
need you in my arms when awake*

end my confusion*

then this summer when the sun shines bright  
we'll walk hand in hand full of delight*

*Perhaps heaven will smile on our love  
blessings from our father above  
all is up to the Lord  
but you are most certainly adored*

*Today passionately attend  
perhaps tomorrow be just friend  
either way you honor this man  
who is content to follow God's plan*

*Matter - Carmelita*

*We matter to God he cares  
when faithful or forget our prayers  
he provides our needs & so much more  
loves us abundantly we're never poor*

*Trust the Lord allow him to bless  
he paid our debt if we confess  
a debt he did not owe  
we reap what we did not sow*

*Everything God creates is good  
spoke his word, the mountains stood  
flowers & forest for our delight  
creation a glorious sight*

*More of thee & less of me dear Lord  
by heaven above we are adored  
& never alone  
we're his own*

no matter how often the story's told*

*The message, always the same  
glorify his name  
born a man & among us trod  
the son of God*

play the trumpet, the cymbal, the chimes

will touch your heart, sublime*

*Are my hopes purely in vain  
only more verse will I gain  
it's still my pleasure to write  
either way hope to delight*

*Stunning - Kari*

*Don't mean to be rude*

*but I'd love to see you nude*

*blushing & nervous privately pose*

*stunning without your clothes*

*Your figure delights your waist is so small*

*breasts firm & large what a ball*

*hips round & womanly, your legs have great shape*

*amazed, where's my measuring tape*

*Appreciate all your assets*

*if I can't have you, eternal regrets*

*vision of beauty you fill me with lust*

*your eyes your smile, especially your bust*

*Platonic friend, how about sex*

*like you much & love your specks*

*seduce you & never call it quits*

*always want to play with your tits*

*Bravo - Kari*

*Two days off in a row*

*can't say hello*

*feeling low*

*pen & paper forgo*

*perhaps just a brief tableau*

*feelings grow*

*have we reached a plateau*

*you prepare no trousseau*

*poems cause vertigo*

*perhaps woe*

*say no*

*you're lovely like a rainbow*

*happy aglow*

*poems most apropos*

*they seem to flow*

*enjoy each memento*

*I bestow*

*not one thing do you owe*

*laughter & pleasure undergo*

*anxious to know*

*like the show*

*say bravo*

*Dunce - Kari*

*You've been lost, searched ignoring cost  
found you & you're hard to find  
we got lucky don't be a dunce, take me serious just once  
let me play with more than your mind*

*Now that your found, sweet lady soft & round  
delighted & won't let you go  
give me a sign, say you're mine  
love forever will grow*

*Passion romance, wine, dine & dance  
a moonlight serenade  
then pretty Miss hold you close for a kiss  
will you be nervous, afraid*

*My love is real , you know what I feel  
tease you all my life  
if that's too much, suppose we just touch  
pretend you're my wife*

*Verse Or Two - Kari*

*You've inspired my pen, as no one before  
now you inspire more  
scores of poems, even a song  
loved you all along*

*If you loved me, what a team  
write a continuous stream  
hone my talent with tenderness  
all who like art you bless*

*Beauty excites, can't help but compose  
you're amused the anthology grows  
what a collection we could create  
should we date*

*More than poetry conceived  
all of God's blessings received  
pretty blond babies gorgeous like you  
began with a verse or two*

*Bounce - Kari*

*Been recently accused of liking your bounce  
reduced to dirty letch waiting to pounce  
why in the world tease girls I don't like  
just want to get you on back of my bike*

*Careful to tease, pretty young girls  
pretend to pout, twirl their curls  
break into laughter as they get their way  
give me excitement when I play*

*Seen the sparkle in your bright blue eyes  
just itching to know what's behind my disguise  
beautiful creature my home is a stage  
my lines aren't found on any page*

*You inspire the words that I sing  
hay baby I'm the Coprilite king  
emotions chaining color like the setting sun  
love you darling cause you're so much fun*

*Million - Kari*

*One in a million my chances are  
shimmering in heaven the brightest star  
reach out to touch & can't help but smile  
so darn young, act infantile*

*Seduction will seldom last  
romantic tales speak of the past  
here & now with paper & pen  
compliment over & over again*

*Gift's from the past treasures write  
today poems do not excite  
what keeps us apart is time  
someday you'll love me reflecting on rhyme*

*You'll wonder about your poet, your friend  
to past inspiration finally attend  
bittersweet memories a touch of regret  
not a lover but you'll never forget*

*Inside - Kari*

*Like your sense of humor  
after all it isn't a rumor  
everyone knows about your tits  
why be offended or or have fits*

*You have style smile & laugh  
jealous girls would be happy with half  
men stare make a remark  
like to get you alone in the dark*

*Bet you're a good judge of men  
what about the guy with a pen  
you seem amused  
by me innocently used*

*Can men keep their hands off you  
one look & wanna screw  
feel desire I confide  
but I also like what's inside*

*Stacked - Kari*

*Wonder what kind of man you attract  
considering how your so damn stacked  
think you should have all of them screened  
just to make sure you don't end up with a fiend*

*Do most of your boyfriends like poetry & art  
are they attracted to your tender warm heart  
do they care how you feel or just feel you up  
longing to get into your abundant D cup*

*Beautiful girls are cynical I'm told  
being used can get really old  
sensitive men are actually quite rare  
it's nice to have someone care*

*Kari you know I care & how  
drink in your charms all you allow  
let me take you out to dine  
you know somewhere they actually serve wine*

*Almost - Kari*

*Don't take myself seriously  
many years been free  
looking but what's there to find  
same old grind*

*Not what I'm looking for  
God has better things in store  
fidelity would be nice  
warm heart instead of ice*

*My search has ended I suspect  
perhaps it's time to reflect  
finally found the very best  
truly blessed*

*Never tease another girl  
write for one priceless pearl  
you have inspired the most  
almost*

*Black Lace - Kari*

*Love to see you in black lace  
passion & desire on your face  
kiss you deeply caress your sweet breast  
vision of beauty slowly undressed*

*The aroma of soft blond hair  
drink in the wonders of one so fair  
make you quiver & beg for more  
thrill you to the core*

*Run my fingers around each curve  
ecstasy is what you deserve  
with every breath a moan of delight  
fulfill your needs all through the night*

*In the morning hold hands & talk  
after breakfast go for a walk  
earnestly for these things I pray  
ah to see you in a black negligee*

*Mistake - Kari*

*Don't want you for a day or a night  
jump into my arms then take flight  
better never to know your touch  
than to loose so much*

*But if you're ready for serious romance  
candlelight dinners & picnic with ants  
don't hold anything back I'm yours  
the love we share endures*

*Who knows we may be a mistake  
that's a chance I'm willing to take  
get over the hurt in time  
be left with volumes of rhyme*

*More than rhyme I desire  
certainly you inspire  
my design  
is to make you mine*

*Head To Tow - Kari*

*Don't know what you're looking for  
just more  
but if you're looking for the last  
hold fast*

*Want you for always & a day  
I say  
after a time lets get wild  
a child*

*With sunshine curls & a voice  
rejoice  
then another & maybe more  
what for*

*Why not they'll be lovely as you  
it's true  
loveliest woman I know  
head to toe*

*Good Luck - Kari*

*Your cup overfloweth & it's a D  
luscious ripe melons, long to be free  
let me lend a hand  
nothing to it, you're grand*

*Turn em loose & watch em grow  
better be careful, do it slow  
wouldn't wanna bruise the fruit  
way past cute*

*Do they ever get in the way  
when you were a kid, went out to play  
bet you had trouble catching a ball  
loose your balance tip over & fall*

*Ever slam a door, on your tit  
stomp your foot & holler shit  
or when you eat  
food falls off your fork but don't hit your feet*

*Enormous problems, you bear them well  
pin this medal on your lapel  
hold still it hurts to get stuck  
says Favorite Bouncer, good luck*

*Your Book - Kari*

*Take a look, here's your book  
tease in a serious way  
about half, make you laugh  
the rest are more than play*

*Good advice, & some spice  
all intended for fun  
touch of sin, make you grin  
an occasional pun*

*You inspire, I admire  
together we create

meeting you was fate*

*or passion concealed in curvaceous hips*

*Imagine kisses sweet as wine*

*love quite tender, yes divine*

*a reason to live*

*what you have to give*

*Stop my wondering, sweetheart say yes*

*no reason to make me constantly guess*

*pray to experience the wonders you hide*

*let's go for a ride*

*Flee the valley, a spectacular vista, a kiss*

*so appropriate, a mountain of bliss*

*with you, sensually, slowly seek*

*to reach the peak*

*Scrawl - Kari*

*If you had any idea how much I care  
you'd understand my stare  
no idle jest, or temporary quest, want the best*

*In many ways you seem so right  
happy & young an incredible sight  
for you, I'd be true, can't help but pursue*

you were with me, what a delight  
beside me, in my heart  
inspiration, music & art*

*Thrilled with talent you beam

can't help but love you it's in the books  
who could resist those puppy dog looks*

*Took you home & thought what the heck  
leaned over & kissed you, just a peck  
were you surprised nervous or mad  
perhaps excited, you weren't sad*

*Make no mistake I'll kiss you again  
entice you with voice & the pen  
every night you'll jump in my bed  
too damn bad it's all in my head*

*Just counted there's half a book  
of poems in your behalf

to literature & art  
my pen would be idle except you're so cute  
& you touched my heart*

*My Arms - Kari*

Once when we'd been apart  
you ran into my arms  
glorious smile touched my heart  
you hugged me, drank in your charms

Been long ago  
that vivid embrace  
it was love you know  
there on your beaming face

Always forever you fill me with joy  
glorious charming delight  
you were my friend my toy  
my inspiration to write

A poet his pen & the girl of his dreams  
the perfect place in time  
nothing could have stopped us it seems  
from creating so much rhyme

*Awake - Kari*

For a few days now been seeing your smile  
whenever there's time to dream for awhile  
never forget your lovely face  
you no longer visit this humble place

Don't blame you for staying away  
but if you'll come back we'll play  
in my repertoire you'll find a new song  
hope to see you before long

Beautiful lady you touched my heart  
you're a glorious work of art  
the Heavens blessed me with someone to love  
a truly rare treasure from above

Brilliant blond hair & intense eyes  
each night taste kisses hear soft sexy sighs  
think of the music we could make  
if you would join me when awake

*To Date - Kari*

*Trying to get in touch

an escalator me up, you down so pregnant I had to frown  
at the mall thousands around, fantasy ended amid the sound  
felt nothing for a long time, couldn't turn to rhyme*

*Inspiration suddenly dead, hoped you were happy & wed  
something died in my heart, for a time turned from art  
years later I reflect, you meant more than I could suspect  
didn't think I'd pine, for someone who wasn't mine*

*The Years - Kari*

your lovely smile mischievous pout  
my love was real there is no doubt*

*delighted to jest*

*No one else knows you in quite the same way*

*seen you at work earning your pay*

*up to your elbows in respect*

*forever smiling I reflect*

*You were meant to comfort the sick*

*when someones hurting you come quick*

*off duty, love to tease*

*have fun & please*

*Can't Sing - Nurse Sue*

*Can't sing in a hospital zone*

*the patients would grab their ears & moan*

*the staff would come running & call the police*

*full of anger demand that I cease*

*Yes it's a very large voice*

*in the theater people rejoice*

*this is the absolute worst place*

*even you'd get in my face*

*Ah but I'd love to give you a thrill*

*won't always be silent & still*

*praise your beauty with sweet melody*

*if you'd care to spend an evening with me*

*Accompany me for a night on the town*

*nothing too formal no evening gown*

*know just the place to sing you a song*

*feel adventurous come along*

*Brief - Nurse Sue*

*Miss you when you're not here*

*almost shed a tear*

*no one here is half as cute*

*shoot*

*Sadly won't see you again*

*almost in vain the work of my pen*

*but it soothes the heart*

*art*

*Art like love lives a long time*

*almost eternal this delicate rhyme*

*poetry is thousands of years old*

*gold*

*Great value is placed on the written word*

*touching the soul like the song of a bird*

*our brief encounter was pure inspiration*

*fun*

*At Stake - Bridget*

*Last night I brought a doll back to life  
happily ever after no more strife  
clearly cursed by some evil witch  
dreamland she doesn't twitch*

*The kiss of some handsome prince  
can revive, perhaps she'll wince  
alas, ignorant of all that was at stake  
we kiss, oops, suddenly awake*

*A Hat - Bridget*

*I can rhyme at the drop of a hat  
naturally practice is where it's at*

*Do it again & again for your smile  
laugh, silliness the style*

*Your giggles impossible to resist  
imagine what I'd write if we kissed*

*Get Set - Bridget*

*Haven't met  
yet  
get set  
let this breach of etiquette  
be no threat  
to a duet  
pretty pet  
your hair reminds me of sunset  
blond & red some brunette  
charm cast a net  
like a magic potion or amulet  
a smile I can't forget  
dance & pirouette  
a moonlight silhouette  
sing & play the castanet  
with desire beset  
don't get upset  
fantasy sweet coquette  
a compliment  
no regret not yet  
in your debt  
beautiful Bridget*

*Pick Up - Bridget*

*How in the world do I compliment & set you at ease  
sure you say thanks, rather hear please  
my motive obvious a pure lust for composition  
plan on making you my very next edition*

*Don't break the spell or what should have been will surely die  
but if we fall in love more than words multiply  
reality can be better than dream  
begins with honesty, love & self esteem*

*Can't make you happy but gladly point the way  
satisfaction does not come with self indulgent play  
what we have now is a pleasant start  
our love shared with many because you touched my heart*

*Love is what you do, more than what you feel  
but if you try to own someone their happiness you steal  
control your feelings & touch the hearts of men  
all I do is smile & pick up a pen*

*Bate - Bridget*

*Wasn't fate  
made them great  
this ornate  
debate  
that I create  
tis bait  
to facilitate  
a date  
don't be irate  
you radiate  
elate  
fascinate  
& poems instigate*

*Fidget - Bridget*

*They don't make me rich, are a really bad pitch  
they make the girls fidget  
a pure waste of time, lonely I rhyme  
have pity on me Bridget  
Make life complete, take the bake seat  
ride my vicious black bike  
today you're my quest, don't be like the rest  
who always say forget the ride, take a hike*

*Very Best - Bridget*

*Inspired each time you blush  
can't help it I've got a crush  
enchanted when you laugh  
& write another paragraph*

*Your good humor you can not hide  
being your friend fills me with pride  
if I could steal your child like heart  
you'd make an impression in the world of art*

*More than poetry you'd inspire  
be the cause of many fire  
music, drama, poetry & prose  
may be opera who knows*

*Keep on blushing & laughing for me  
it's your duty don't you see  
offer the world of art your best  
you're greatly blessed*

*Beguile - Bridget*

*Yes it true you beguile  
especially as you slyly smile  
knowing eyes seem to haunt  
as tho you know what I really want*

*You think it's obvious my desire  
perhaps it's just that you inspire  
with your delightful charm  
tho your figure does alarm*

*Quit - Bridget*

*I'll never quit  
each tidbit  
commit  
& never omit  
one bit  
of wit  
just sit  
rhyming infinite  
for my favorite  
I admit  
is exquisite  
Bridget*

*Such A Jerk - Bridget*

*Sometimes I feel like such a jerk  
sitting here watching you work  
it's you I seek to serve  
forced to observe*

*Looking I pay no price  
gazing at you is actually nice  
but next time let me pour the wine  
serving you would be fun, your fine*

*Heart Throb - Bridget*

*Hard to forget, long ago we met  
you were too nervous to remember  
first day on the job, sweet young heart throb  
planting a slow burning ember*

*Now when we meet, you're more than sweet  
a woman so fair  
don't think me rude, appalling latitude  
you're old enough now I can stare*

*Pull - Bridget*

*Writing poems is like pulling weeds  
only good attitude suites my needs  
growing flowers so I do my best  
truth & beauty is the quest*

*A face young & fair is not enough  
a glorious exterior can be a bluff  
it's hard not to show what's really inside  
when a poet presumes to confide*

*Friendship is my very first goal  
a lady offended is quite droll  
a little excitement & a smile  
that girl has style*

*I'm very grateful that you laugh  
it's easy to write in your behalf  
a weed you're not so I won't pull  
except your leg, a touch of bull*

*Caressive - Bridget*

*Sweetest girl I know*

*comes to nice, steals the show*

*already stolen a poets heart*

*falling back on art*

*Brightens the day*

*sunshine not gray*

*love starts*

*with warm hearts*

*Ever sincere*

*put aside fear*

*could begin*

*with a grin*

*Young & wise*

*spectacular prize*

*impressive*

*caressive*

*Wrinkle - Grace*

*You wrinkle up your nose*

*& strike a funny pose*

*with each mistake*

*or when things break*

*You always make me laugh*

*accidents in my behalf*

*shouldn't tease*

*when nervous you freeze*

*only meant to please*

*Drop A Plate - Grace*

*A bundle of nerves, happy smiles*

*delightful curves*

*won't mind if you drop a plate*

*leave a tip not be irate*

*Calm down you've nothing to fear*

*you create atmosphere*

*morning's brighter because of you*

*a pretty busy view*

*A Cup - Grace*

*I walk up*

*you drop a cup*

*very young*

*& high stung*

*Complexions rosy*

*when I'm nosy*

*when jolly*

*it's your folly*

*I'm flamboyant*

*not clairvoyant*

*some things growing*

*where's it going*

*Clumsy luck*

*or thunderstruck*

*have you been smitten*

*nervous kitten*

*by what's written*

*Candor - Grace*

*With perfect candor*

*I meander*

*& slyly gander*

*you're grander*

*than the average bystander*

*Wouldn't Do - Grace*

*Writing one just wouldn't do*

*so I went & wrote you two*

*with each verse love has grown*

*be aware the seed is sown*

*Again - Grace*

*Again you ask for verse to tease*

*but your eyes politely say please*

*irresistibly charming I pick up my pen*

*delighted to do it again*

*I praise your beauty but please be aware*

*enchancing lady you are most fair*

*so if you'll treat me tenderly*

*I'll compose a symphony*

*Track - Grace*

*Hope I make you nervous, hope I make you grin  
let me be responsible for the blush on your white skin  
my fault your forgetfulness, let me be to blame  
teasing you is always a most delightful game*

*Tomorrow if you drop a cup naturally I'll laugh  
& silently be hoping you tripped in my behalf  
as long as you are here promise I'll be back  
most amused, for me it seems  
your train has jumped the track*

*To The Poet - from Grace*

*Once there was a guy  
who came by to say hi  
with a wink he asked my name  
that's when he started this funny game*

*He wrote me poems & letters too  
this is something very new  
he's always there when I turn around  
he makes me drop things on the ground*

*Wrote The Poet - Grace*

*You wrote the poet a poem  
& you don't even know him  
you're a treat, & so sweet,  
can we meet*

*This has never happened before  
will there be more  
words like lace, Lance & Grace, rhyming a race  
let's embrace*

*Turn Red - Grace*

*Very responsive  
you always turn red  
try to be passive  
you're clumsy instead*

*Inspiring humerus  
melody to amuse  
grateful & curious  
how you cure my blues*

*Hit The Door - Grace*

*Tease you once more  
then hit the door  
I'd put up my pen  
heck do it again*

*It isn't hard  
you laugh at the bard  
having fun  
on the run*

*Lady you're nice  
a pearl of great price  
do you tire  
you don't perspire*

*Maybe a bit  
but you don't quit  
that's a sexy smile on your face  
Grace*

*Look For - Grace*

*When I need inspiration I look for Grace  
pleasant confusion with smiling face  
you always compel me to pick up my pen  
praising your beauty sweet comedian*

*You're delightful & young so full of joy  
this tribute penned by a grateful boy  
the day is more lovely because of you  
your smile shines more brightly than sunrise anew*

*Very responsive you always turn red  
try to be passive you're clumsy instead  
inspiring humorous melody to amuse  
I'm grateful & curious, you cured my blues*

*Teasing you because you blush  
pleasing you, pretending a crush  
I might be serious you never know  
if you're delirious, love could grow*

*Mess - Grace*

*Making a mess*

*don't stress*

*almost done cleaning it up*

*overfilled a cup*

*A cup overflowing can be more than a mess*

*it can bless*

*when accidents happen put a smile on your face*

*turn a frown into laughter that's Grace*

*When things go wrong*

*she'll sing a song*

*or laugh out loud*

*get attitude, get proud*

*That's how you overcome*

*go beyond where you're from*

*dig right in*

*with a grin*

*One - Grace*

*Looking for one*

*who thinks it's fun*

*to play in the sun*

*when games are begun*

*opponents shell stun*

*then laugh when she's won*

*never outdone*

*by anyone*

*competitive companion*

*rather have none*

*ladies shun*

*till I find one who can't be outrun*

*Disgrace - Grace*

*It's a disgrace, Grace, you aren't here*

*you don't provide, pride, this way dear*

*just a lovesick, hick, without you*

*I will amend, friend, but what did I do*

*Easy - Grace*

*Met a girl, she's a pearl,  
laughs at me discretely  
gentle smile, for awhile  
then ignores me completely*

*I must find, what's on your mind  
nerves or do you love me  
there's a chance, it's romance  
you're easy to entrance*

*Ker Splat - Grace*

*Unusual things interest me  
I always examine unique symmetry  
then you sat down this water glass  
it's a grin in fact it's a gas*

*It keeps tipping this way & that  
then it fell ker-splat  
why was I chosen  
on this fine day to get frozen*

*Face - Grace*

*A smiling face  
a queen, an ace  
state my case  
in apace  
run a race  
make chase  
set the pace  
for your embrace  
a romantic place  
a flower a vase  
no disgrace  
please no mace  
I'm not base  
seek to find a gentle space  
to interlace  
please don't misplace  
this frilly lace  
you can't replace  
this poem's personal not commonplace*

*Grace*

*Machine - Grace*

*Glad you called tho you got my machine  
a cute little message from my favorite teen  
you seemed shy or nervous, perhaps a touch sad  
missing your call made me mad*

*May be not mad but it would have been fun  
to speak with you but had to run  
busy with this & that  
don't even remember where I was at*

*Next time you call hope I'm there  
beginning to think you really care  
not always out & about  
from your heart remove all doubt*

*Feeling something, you're not alone  
reassure you over the phone  
delighted each time you dial  
you make me smile*

*Couldn't Talk - Grace*

*When you called I couldn't talk  
that's like a sprinter who couldn't walk  
more nervous than on a first date  
gosh you're great*

*Like your freckles, like your hair  
figures delightful can't help but stair  
looking for the courage to speak  
but you make me weak*

*Phone - Grace*

*Remember you Grace, a sweet child  
bet you were wild  
anything but cold  
can't imagine you growing old*

*In my heart you never will  
working the counter providing a thrill  
never did get you alone  
damn phone*
